THE NEW STATE OF DELAWARE REGULATIONS MANAGEMENT SYSTEM

Coming soon in 2024!

The State of Delaware is currently building an all new web-based system for state agencies to securely and efficiently create, edit, submit, and maintain regulations.

Throughout the next few months, the State of Delaware Division of Research will provide additional updates on this new system release including information on training, go-lives, and how your agency can get on board.

Please contact Yvette Smallwood at the Division of Research with your updated Agency contact information so we can keep you updated on this exciting new release!
