#### **7.0 Supervised Experience**

The types of supervision pertinent to licensure as a psychologist or registration as a psychological assistant are comprised of three types of supervisory experiences:

- 7.1 Predoctoral internship supervision is required by doctoral programs in psychology. The predoctoral internship consists of a minimum of 1,500 hours of actual work experience completed in not less than 48 weeks, nor more than 104 weeks. At least 50% of the predoctoral supervised experience must be in clinical services such as treatment, consultation, assessment, and report writing, with at least 25% of that time devoted to face-to-face direct patient/client contact. No more than 25% of time shall be allocated for research.
- 7.2 Supervised postdoctoral experience is required for initial licensure. Postdoctoral experience must consist of 1,500 hours of actual work experience. This experience must be completed in not less than one calendar year and not more than three calendar years, save for those covered under 24 **Del.C.** §3519(e). For those individuals the accrual of 1,500 hours of supervised postdoctoral experience must take place within six calendar years from the time of hire. At least 25% of the 1500 hours of experience shall be devoted to direct service in the area of the applicant's academic training. "Direct service" consists of any activity defined as the practice of psychology or the supervision of graduate students engaging in activities defined as the practice of

psychology. There must be one hour of face-to-face supervision for every one to 10 hours of clinical work. The Board will consider requests to substitute group supervision for some portion of the one-to-one, face-to-face supervision requirement. A supervising psychologist must petition the Board and show good cause for this substitution. If the supervising psychologist's request is granted, no more than five (5) postdoctoral applicants may meet with the supervising psychologist at one time and there must be two (2) hours of group supervision in place of every one (1) hour of individual supervision. All postdoctoral applicants must have at least one (1) hour of individual supervision per week. The Board reserves the right to withdraw their permission for the substitution at any time. Not more than 25% of this supervision can be done by other licensed mental health professionals besides psychologists.

The purpose of the postdoctoral supervision is to train psychologists to practice at an independent level. This experience should be an organized educational and training program with explicit goals and a clear plan to meet those goals. There should be regular written evaluations based on this program.

- 7.3 Supervision of psychological assistants is required at the frequency of one hour of face-to-face supervision for every 1-10 hours of clinical work by the psychological assistants, as required by Section 9 of the Rules and Regulations. An individual registered as a psychological assistant may or may not be receiving supervision in pursuit of independent licensure as a psychologist.
- 7.4 A psychologist providing either postdoctoral supervision or supervision of psychological assistants must have been in practice for two years post licensure in this or any other jurisdiction without having been subject to any disciplinary actions. He/she must provide 24-hour availability to both the supervisee and the supervisee's clients, or ensure that adequate alternative coverage is provided in the supervisor's absence. The supervising psychologist shall have sufficient knowledge of all clients including face-to-face contact when necessary and must be employed or under contract in the setting where the clinical service takes place and the supervision must occur within that setting.

## **8.0 Failure to Pass Examination**

Applicants may take the Examination for the Professional Practice in Psychology as many times as they choose. Intervals between testing will be determined by the testing agency and the ASPPB.

## **9.0 Psychological Assistants**

- 9.1 A psychological assistant is an individual who meets the requirements of 24 **Del.C.** §3509(2a-2e). This individual may be registered as a psychological assistant in order to receive supervision to be eligible for later licensure to practice independently as a psychologist and/or for any other reason as recognized by law.
- 9.2 Psychological assistants are supervised, directed, and evaluated by a Delaware licensed psychologist who assumes professional and legal responsibility for the services provided.
  - 9.2.1 Any Delaware licensed psychologist who has had a least two (2) years of experience following the granting of licensure in this or in any other state may supervise a maximum of seven (7) psychological assistants.
  - 9.2.2 It is the responsibility of the supervising psychologist in conjunction with the psychological assistant to diagnose and form treatment plans for patients seen by the psychological assistant and to file such plan in the patient/client's chart.
  - 9.2.3 The patient/client must be informed that services are being delivered by a psychological assistant and that the licensed psychologist is responsible for the treatment.
  - 9.2.4 The patient/client shall sign a statement of informed consent attesting that he/she understands that the services are being delivered by a psychological assistant and that the licensed psychologist is ultimately responsible for his/her treatment. This document shall include the supervising psychologist's name and the telephone number where he/she can be reached. One copy shall be filed with the patient/client's record and another given to the patient.
- 9.3 The Delaware licensed psychologist is identified as the legally and ethically responsible party in all advertising, public announcements, and billings. In addition, billings and advertisements will clearly indicate that the service

**TITLE 24 REGULATED PROFESSIONS AND OCCUPATIONS**  
**DELAWARE ADMINISTRATIVE CODE**

---

is being provided by a psychological assistant. All treatment and evaluation reports prepared by the psychological assistant must be signed by the psychologist and the psychological assistant.

- 9.4 The Delaware licensed psychologist who accepts the responsibility of using a psychological assistant shall develop and maintain a current, written job description delineating the range and type of duties, educational practicum and clinical experience to be assigned to the psychological assistant, limits of independent action, emergency procedures for contacting the supervising psychologist, and the amount and type of supervision to be provided. This job description must be signed by the psychologist and the psychological assistant and will be filed in the Division of Professional Regulation, along with an official copy of the psychological assistant's college transcript, and proof of a 450-hour clinical practicum supervised by a licensed psychologist or by a faculty member in a nationally accredited doctoral level clinical training program in the State of Delaware who is actively pursuing licensure. The psychological assistant will also provide a statement under oath as outlined in 24 **Del.C.** §3509(b1 - b3).
- 9.5 The Board will then review credentials, job description and supervisory arrangements, and if the arrangements are acceptable, will inform the psychologist in writing that the psychological assistant can begin work. No psychological assistant shall begin work until the Board has approved the application. Registration for psychological assistants expires biennially and continued performance of the duties of a psychological assistant requires proof of twenty (20) hours of continuing education and payment of the renewal fee.
- 9.6 Supervision of the psychological assistant by the Delaware licensed psychologist is to be a regular and formal process. It is required that the licensed psychologist and the psychological assistant have weekly one-on-one, face-to-face supervision with review of each case served by the psychological assistant. The supervising psychologist must be familiar with each patient/ client seen by the psychological assistant and with the ongoing progress of treatment. One hour of supervision for every ten hours, or fraction thereof, of direct clinical work by the psychological assistant is required as a minimum. For example, if a psychological assistant provides eight (8) hours of direct clinical service, he or she must receive a minimum of one (1) hour of supervision. Likewise, a psychological assistant, who has fifteen (15) hours of direct clinical contact, must receive at least two (2) hours of supervision. This supervision must be documented in writing on patient records. In addition, the supervising psychologist shall submit at the time of renewal and at the termination of the supervision relationship a supervision report on a form provided by the Board which will become a part of the public record. It will contain information describing the date and amount of supervision and any unscheduled supervisory contact, as well as a brief assessment of the psychological assistant's functioning.
- 9.6.1 The Board will consider requests to substitute group supervision for some portion of the one-to-one, face-to-face supervision requirement. A supervising psychologist must petition the Board and show good cause for this substitution. If the supervising psychologist's request is granted, no more than five (5) psychological assistants may meet with the supervising psychologist at one time and there must be two (2) hours of group supervision in place of every one (1) hour of individual supervision. All psychological assistants must have at least one (1) hour of individual supervision per week. The Board reserves the right to withdraw their permission for the substitution at any time.
- 9.7 Psychological Assistants are to work in the office of the licensed psychologist so as to have regular and continued supervision. When the licensed psychologist is not in the office, he or she must provide clear contingency plans for consultation for the psychological assistant. It is assumed that the psychologist will be available to the psychological assistant under most circumstances; therefore, arrangements in which the supervising psychologist is employed full time elsewhere will not be approved, unless it can be demonstrated that there will be adequate supervision and contingency coverage of the psychological assistant. Supervising psychologists must describe in their application for the psychological assistant how much supervision they will provide and how that supervision will be provided.
- 9.8 Psychological assistants who work for agencies must be supervised by a psychologist employed by or under contract to the agency. Supervision must occur on site, and the agency must have clearly spelled out plans for providing consultation and backup when the supervising psychologist is not on site. A psychological assistant, who provides services that are under the direction of different psychologists, must be registered as a psychological assistant by all of the psychologists who are directly supervising the clinical work.
- 9.9 When there is a complaint of incompetent, improper, or unethical behavior on the part of the psychological assistant, in addition to the disciplinary action against the psychological assistant, disciplinary action may be taken against the supervising psychologist for failing to provide adequate supervision of the psychological assistant. The Board reserves the right to suspend or revoke the Delaware licensed psychologist's privilege of hiring a psychological assistant when just cause has been established through a formal hearing. Violation of

this regulation may constitute cause for suspending or revoking the future privilege of hiring a psychological assistant.

- 9.10 Patients/clients are always the responsibility of the supervising psychologist. Termination or transfer plans must be worked out with the approval of the supervising psychologist. A psychological assistant will be considered to be working for the supervising psychologist until the Board of Examiners is notified in writing of the change in arrangements. The letter terminating a psychological assistant arrangement must also specify when the supervising psychologist is terminating the arrangement because of concerns about the ethical or professional behavior of the psychological assistant.

However, the participating Board may consider such records in setting a disciplinary sanction in any future matter in which the regulated professional's chemical dependency or impairment is an issue.
- 15.8 The participating Board's chairperson, his/her designate or designates or the Director of the Division of Professional Regulation or his/her designate may, in consultation with the treating professional at any time during the Voluntary Treatment Option, restrict the practice of a chemically dependent or impaired professional if such action is deemed necessary to protect the public health, welfare or safety.
- 15.9 If practice is restricted, the regulated professional may apply for unrestricted licensure upon completion of the program.
- 15.10 Failure to enter into such agreement or to comply with the terms and make satisfactory progress in the treatment program shall disqualify the regulated professional from the provisions of the Voluntary Treatment Option, and the participating Board shall be notified and cause to be activated an immediate investigation and disciplinary proceedings as appropriate.
- 15.11 Any person who reports pursuant to this section in good faith and without malice shall be immune from any civil, criminal or disciplinary liability arising from such reports, and shall have his/her confidentiality protected if the matter is handled in a nondisciplinary matter.

- 18.2 In order to practice telepsychology one must hold a current, valid license issued by the Board.
- 18.3 Licensees understand that this rule does not provide licensees with authority to practice telepsychology in service to clients domiciled in any jurisdiction other than Delaware, and licensees bear responsibility for complying with laws, rules, and/or policies for the practice of telepsychology set forth by other jurisdictional boards of psychology.
- 18.4 Licensees practicing telepsychology shall comply with all of these rules of professional conduct and with requirements incurred in state and federal statutes relevant to the practice of psychology.

- 18.5 Licensees establish and maintain current competence in the professional practice of telepsychology through continuing education, consultation, or other procedures, in conformance with prevailing standards of scientific and professional knowledge. Licensees establish and maintain competence in the appropriate use of the information technologies utilized in the practice of telepsychology.
- 18.6 Licensees recognize that telepsychology is not appropriate for all psychological problems and clients, and decisions regarding the appropriate use of telepsychology are made on a case-by-case basis. Licensees practicing telepsychology are aware of additional risks incurred when practicing psychology through the use of distance communication technologies and take special care to conduct their professional practice in a manner that protects the welfare of the client and ensures that the client's welfare is paramount. Licensees practicing telepsychology shall:
- 18.6.1 Conduct a risk-benefit analysis and document findings specific to:

  - 18.6.3 Upon initial and subsequent contacts with the client, make reasonable efforts to verify the identity of the client;
  - 18.6.4 Obtain alternative means of contacting the client;
  - 18.6.5 Provide to the client alternative means of contacting the licensee;
  - 18.6.6 Establish a written agreement relative to the client's access to face-to-face emergency services in the client's geographical area, in instances such as, but not necessarily limited to, the client experiencing a suicidal or homicidal crisis;
  - 18.6.7 Licensees, whenever feasible, use secure communications with clients, such as encrypted text messages via email or secure websites and obtain and document consent for the use of non-secure communications.
  - 18.6.8 Prior to providing telepsychology services, obtain the written informed consent of the client, in language that is likely to be understood and consistent with accepted professional and legal requirements, relative to:
    - 18.6.8.1 The limitations and innovative nature of using distance technology in the provision of psychological services;
    - 18.6.8.2 Potential risks to confidentiality of information due to the use of distance technology;
    - 18.6.8.3 Potential risks of sudden and unpredictable disruption of telepsychology services and how an alternative means of re-establishing electronic or other connection will be used under such circumstances;
    - 18.6.8.4 When and how the licensee will respond to routine electronic messages;
    - 18.6.8.5 Under what circumstances the licensee and service recipient will use alternative means of communications under emergency circumstances;
    - 18.6.8.6 Who else may have access to communications between the client and the licensee;
    - 18.6.8.7 Specific methods for ensuring that a client's electronic communications are directed only to the licensee or supervisee;

  - 18.6.9 Ensure that confidential communications stored electronically cannot be recovered and/or accessed by unauthorized persons when the licensee disposes of electronic equipment and data;

**APPENDIX A**

“Professional psychology” refers to psychology as a profession. The term is not intended in the more restrictive sense of applied or practice areas of psychology since the intent is for a generic designation system.

6.1.1.2.1 refers to an institution with regional accreditation in the United States, an institution with provincial authorization in Canada, or in other countries, or an institution that is accredited by a body which was deemed by the ASPPB/National Register Joint Designation Committee to be performing a function equivalent to U.S. regional accrediting bodies.

It is understood that rule 6.1.1.2.9 includes the requirement of a minimum of one year’s residency at the educational institution granting the doctoral degree.
