Continuing education requirements arise from an awareness that these fields are in a continual state of transition due to the introduction of new philosophies and the refinement of already existing knowledge. Speech/Language Pathologists, Audiologists and Hearing Aid Dispensers should continually strive to update their clinical skills in an effort to deliver high quality services.
  - 8.1.2 The Board is keenly aware of existing educational opportunities in Delaware and neighboring states and has established regulations which will provide continuing education credit as effortlessly as possible while assuring quality instruction. Credit will be given for participation in a variety of activities that increase knowledge and enhance professional growth.

9.3.1.3 Licensees may use clients in research or as subjects of teaching demonstrations only with their informed consent. An informed consent must be explained and written in lay terms.

9.3.1.4 Licensees shall inform clients in any matter where there is or may be a conflict of interest. Conflicts of interest may be found when a client is steered to a particular provider by one with an expectation of financial gain (kickbacks) or a provider is involved in double dipping by providing services in a private practice that he or she is obligated to provide through public employment (double-dipping).

9.3.1.5 Licensees shall make no guarantees of the results of any product or procedure but may make a reasonable statement of prognosis.

9.3.1.6 Licensees shall provide services or dispense products only when benefits can reasonably be expected.

9.3.1.7 Licensees shall not engage in misrepresentation, dishonesty, fraud, or deceit. Misrepresentation includes statements likely to mislead or an omission of material information.

9.3.1.8 Licensees who advertise shall provide information in a truthful manner that is direct and not likely to mislead the public. Any written disclaimer or condition that limits or modifies an offer of services or merchandise must be provided in a clear and conspicuous manner in a type size that is at least one-half the size of the type used in making the offer of services or merchandise.

**12.0 Voluntary Treatment Option for Chemically Dependent or Impaired Professionals**

- 12.1 If the report is received by the chairperson of the regulatory Board, that chairperson shall immediately notify the Director of Professional Regulation or his/her designate of the report. If the Director of Professional Regulation receives the report, he/she shall immediately notify the chairperson of the regulatory Board, or that chairperson's designate or designates.
- 12.2 The chairperson of the regulatory Board or that chairperson's designate or designates shall, within 7 days of receipt of the report, contact the individual in question and inform him/her in writing of the report, provide the individual written information describing the Voluntary Treatment Option, and give him/her the opportunity to enter the Voluntary Treatment Option.
- 12.3 In order for the individual to participate in the Voluntary Treatment Option, he/she shall agree to submit to a voluntary drug and alcohol screening and evaluation at a specified laboratory or health care facility. This initial evaluation and screen shall take place within 30 days following notification to the professional by the participating Board chairperson or that chairperson's designate(s).
- 12.4 A regulated professional with chemical dependency or impairment due to addiction to drugs or alcohol may enter into the Voluntary Treatment Option and continue to practice, subject to any limitations on practice the participating Board chairperson or that chairperson's designate or designates or the Director of the Division of Professional Regulation or his/her designate may, in consultation with the treating professional, deem necessary, only if such action will not endanger the public health, welfare or safety, and the regulated professional enters into an agreement with the Director of Professional Regulation or his/her designate and the chairperson of the participating Board or that chairperson's designate for a treatment plan and progresses satisfactorily in such treatment program and complies with all terms of that agreement. Treatment programs may be operated by professional Committees and Associations or other similar professional groups with the approval of the Director of Professional Regulation and the chairperson of the participating Board.
- 12.5 Failure to cooperate fully with the participating Board chairperson or that chairperson's designate or designates or the Director of the Division of Professional Regulation or his/her designate in regard to the Voluntary Treatment Option or to comply with their requests for evaluations and screens may disqualify the regulated professional from the provisions of the Voluntary Treatment Option, and the participating Board chairperson or that chairperson's designate or designates shall cause to be activated an immediate investigation and institution of disciplinary proceedings, if appropriate, as outlined in subsection 12.8.

  - 12.6.2 Consent to the treating professional of the approved treatment program to report on the progress of the regulated professional to the chairperson of the participating Board or to that chairperson's designate or designates or to the Director of the Division of Professional Regulation or his/her designate at such intervals as required by the chairperson of the participating Board or that chairperson's designate or designates or the Director of the Division of Professional Regulation or his/her designate, and such person making such report will not be liable when such reports are made in good faith and without malice.

- 12.6.5 Agreement by the regulated professional that failure to satisfactorily progress in such treatment program shall be reported to the participating Board's chairperson or his/her designate or designates or to the Director of the Division of Professional Regulation or his/ her designate by the treating professional who shall be immune from any liability for such reporting made in good faith and without malice.

However, the participating Board may consider such records in setting a disciplinary sanction in any future matter in which the regulated professional's chemical dependency or impairment is an issue.
- 12.8 The participating Board's chairperson, his/her designate or designates or the Director of the Division of Professional Regulation or his/her designate may, in consultation with the treating professional at any time during the Voluntary Treatment Option, restrict the practice of a chemically dependent or impaired professional if such action is deemed necessary to protect the public health, welfare or safety.
- 12.9 If practice is restricted, the regulated professional may apply for unrestricted licensure upon completion of the program.
- 12.10 Failure to enter into such agreement or to comply with the terms and make satisfactory progress in the treatment program shall disqualify the regulated professional from the provisions of the Voluntary Treatment Option, and the participating Board shall be notified and cause to be activated an immediate investigation and disciplinary proceedings as appropriate.
- 12.11 Any person who reports pursuant to this section in good faith and without malice shall be immune from any civil, criminal or disciplinary liability arising from such reports, and shall have his/her confidentiality protected if the matter is handled in a nondisciplinary matter.

#### **14.0 Speech/Language Pathology Assistants**

**14.1 Definitions.** The following words and terms, when used in Section 14.0 of this regulation, have the following meaning:

**"Direct supervision"** means in-view observation and guidance while the speech/language pathology assistant (SLPA) is performing a clinical activity. This can include the supervising speech/language pathologist (supervising SLP) viewing and communicating with the SLPA via telecommunication technology as the SLPA provides clinical services which allows the supervising SLP to provide ongoing immediate feedback. Direct supervision does not include reviewing an audio or video recorded session later.

**"Indirect supervision"** means the monitoring or reviewing of an SLPA's activities outside of observation and guidance during direct services provided to a student, patient, or client. Indirect supervision activities performed by the supervising SLP may include demonstration, records review, review and evaluation of audio or video recorded sessions, and interactive conferences that may be conducted by telephone, email, or other forms of telecommunication, such as virtual platforms.

- 14.2 Licensure Requirements. To be eligible for a license as a speech/language pathology assistant, the applicant must hold current speech/language pathology assistant's certification (C-SLPA) through ASHA or its successor or another organization acceptable to the Board.
- 14.3 Scope of Practice for SLPA. The SLPA may only perform tasks as prescribed, directed and supervised by a licensed supervising SLP.
- 14.4 The SLPA shall not self-identify, either verbally, in writing, or by signage, as an SLP.
- 14.5 Requirements for Supervising SLP
  - 14.5.1 Prior to beginning supervision of an SLPA, the supervising SLP must meet the following requirements:
    - 14.5.1.1 Hold an active Delaware license in good standing.
    - 14.5.1.2 Complete a minimum of 2 years of post-permanent licensure experience obtained in any state.
    - 14.5.1.3 Complete a minimum of 2 hours of continuing education in clinical supervision obtained prior to beginning supervision.
  - 14.5.2 Throughout supervision of an SLPA, the supervising SLP must comply with the following standards:
    - 14.5.2.1 Adhere to the principles and rules of the ASHA Code of Ethics (ASHA, 2016a).
    - 14.5.2.2 Adhere to applicable licensure laws and rules and regulations regarding the practice of speech/language pathology.
    - 14.5.2.3 Conduct ongoing competency evaluations of the SLPA.
    - 14.5.2.4 Provide ongoing education and training opportunities for the SLPA consistent with competency and skills required to meet the needs of the clients served.
    - 14.5.2.5 Develop, review, and modify treatment plans for clients that the SLPA implements under the supervision of the SLP.
    - 14.5.2.6 Make all case management decisions.
    - 14.5.2.7 Adhere to the supervisory responsibilities for SLPs.
    - 14.5.2.8 Retain legal and ethical responsibility for all students, patients, and clients served.
- 14.6 Supervision Requirements
  - 14.6.1 The supervising SLP is responsible for providing appropriate and adequate supervision of the SLPA to ensure that services are appropriate, meet practice standards and are administered competently.
  - 14.6.2 The supervising SLP must consider client needs and the SLPA's knowledge and skills to determine what constitutes appropriate supervision, which may be more than the minimum state requirements.
  - 14.6.3 The supervising SLP must ensure that the SLPA only performs those activities that are defined as appropriate for the level of training and experience and in accordance with applicable state requirements.
  - 14.6.4 If the SLPA exceeds the practice role that has been defined for them, the supervising SLP must intervene to correct the actions of the SLPA as needed.
  - 14.6.5 The supervising SLP must accurately document and regularly record all supervisory activities, both direct and indirect.
  - 14.6.6 Minimum ongoing supervision must include documentation, at the discretion of the SLP and SLPA, of direct supervision provided by the supervising SLP for each student, patient, or client at least every 90 days (depending on frequency of visits/sessions and setting).
  - 14.6.7 The SLP can adjust the amount of supervision if they determine that the SLPA has met appropriate competencies and skill levels in treating students, patients, and clients who have a variety of communication disorders.
  - 14.6.8 Supervision of the SLPA may be indirect, at the discretion of the supervising SLP, except that 100% direct supervision of SLPAs for medically fragile students, patients, or clients is required.
  - 14.6.9 The supervising SLP is responsible for designing and implementing a written supervisory plan, which ensures that the SLP maintains the highest standard of quality care for students, patients, and clients.
  - 14.6.10 An SLPA may not perform tasks when a supervising SLP cannot be reached by personal contact, that is, phone, pager, or other immediate or electronic means. If a supervising SLP is not available, then the SLPA may not perform assigned tasks until an ASHA-certified or state-licensed SLP with experience and training in supervision has been designated as the new supervising SLP.

14.6.11 A supervising SLP who will be unable to supervise an SLPA for more than 1 week will need to inform the SLPA of the planned absence and notify the employer or site administrator that other arrangements need to be made for the SLPA's supervision of services while the supervising SLP is unavailable.

14.7 Supervision ratio. A supervising SLP may supervise no more than 1 SLPA at any given time.
