

# DEPARTMENT OF EDUCATION

## OFFICE OF THE SECRETARY

Statutory Authority: 14 Delaware Code, Section 122(b) (14 Del.C. §122(b))  
14 DE Admin. Code 805

### PROPOSED

#### Education Impact Analysis Pursuant To 14 Del.C. Section 122(D)

#### 805 The School Health Tuberculosis (TB) Control Program

##### A. Type of Regulatory Action Required

Amendment to Existing Regulation

##### B. Synopsis of Subject Matter of the Regulation

The Secretary of Education intends to amend 14 DE Admin. Code 805 School Health Tuberculosis (TB) Control Program to update the types of testing for tuberculosis and to provide guidance for asymptomatic individuals. The Department engaged the Division of Public Health on review of the regulation and the proposed amendments.

Persons wishing to present their views regarding this matter may do so in writing by the close of business on or before February 3, 2010 to Susan K. Haberstroh, Education Associate, Regulation Review, Department of Education, at 401 Federal Street, Suite 2, Dover, Delaware 19901. A copy of this regulation is available from the above address or may be viewed at the Department of Education business office.

##### C. Impact Criteria

1. Will the amended regulation help improve student achievement as measured against state achievement standards? The amended regulation is related to tuberculosis testing and control and not specifically student achievement.

2. Will the amended regulation help ensure that all students receive an equitable education? The amended regulation is related to tuberculosis testing and control and not specifically students receiving an equitable education.

3. Will the amended regulation help to ensure that all students' health and safety are adequately protected? The amended regulation is intended to ensure all students' and staff's health and safety is adequately protected, specifically regarding tuberculosis.

4. Will the amended regulation help to ensure that all students' legal rights are respected? The amended regulation is related to tuberculosis testing and control and not specifically legal rights.

5. Will the amended regulation preserve the necessary authority and flexibility of decision making at the local board and school level? The amended regulation preserves the necessary authority and flexibility of decision making at the local board and school level.

6. Will the amended regulation place unnecessary reporting or administrative requirements or mandates upon decision makers at the local board and school levels? The amended regulation does not place unnecessary reporting or administrative requirements or mandates upon decision makers at the local board and school levels.

7. Will the decision making authority and accountability for addressing the subject to be regulated be placed in the same entity? The amended regulation does not change where decision making authority and accountability is determined.

8. Will the amended regulation be consistent with and not an impediment to the implementation of other state educational policies, in particular to state educational policies addressing achievement in the core academic subjects of mathematics, science, language arts and social studies? The amended regulation is consistent with other state educational policies.

9. Is there a less burdensome method for addressing the purpose of the regulation? There is not a less burdensome method for addressing tuberculosis control in schools.

10. What is the cost to the State and to the local school boards of compliance with the regulation? There are no additional costs to the state or local boards for compliance with the amendments.

## 805 The School Health Tuberculosis (TB) Control Program

### 1.0 Definitions

**"New School Enterer"** means any child between the ages of one year and twenty one (21) years entering or being admitted to a Delaware public school for the first time, including but not limited to, foreign exchange students, immigrants, students from other states and territories, and children entering from nonpublic schools. For purposes of this regulation, "new school enterer" shall also include any child who is re enrolled in a Delaware public school following travel or residency of one month in a location or facility identified by the Delaware Division of Public Health as an area at risk for ~~TB~~ tuberculosis exposure.

**"School Staff and Extended Services Personnel"** means all persons hired as full or part time employees in a public school ~~who are receiving compensation to work directly with students and staff~~. This includes, but is not limited to teachers, administrators, substitutes, contract employees, bus drivers and student teachers whether compensated or not.

**"Tuberculosis Risk Assessment"** means a formal assessment by a healthcare professional to determine possible tuberculosis exposure through the use of a health history or questionnaire.

**"Tuberculosis Test"** means a Mantoux skin test, Quantiferon Gold blood test, or other test approved by the Delaware Division of Public Health.

**"Verification"** means a documented evaluation of the individual's disease status.

**"Volunteers"** mean those persons who give their time to help others for no monetary reward and who share the same air space with public school students and staff on a regularly scheduled basis.

### 2.0 School Staff and Extended Services Personnel

2.1 School ~~s~~Staff and ~~e~~Extended ~~s~~Services personnel shall provide the ~~Mantoux tuberculin skin test~~ Tuberculosis Test results from a test administered within the past 12 months during the first 15 working days of employment.

2.1.1 ~~Tuberculin skin test~~ Tuberculosis Test requirements may be waived for public school staff and extended services personnel who present a notarized statement that ~~tuberculin skin testing~~ tuberculosis testing is against their religious beliefs. In such cases, the individual shall complete the Delaware Department of Education TB Health Questionnaire for School Employees or provide, within two (2) weeks, verification from a licensed health care provider or the Division of Public Health that the individual does not pose a threat of transmitting tuberculosis to students or other staff.

2.1.1.1 If a school staff member or extended services person, who has ~~received~~ submitted a waiver because of religious beliefs, answers affirmatively to any of the questions in the Delaware Department of Education TB Health Questionnaire for School Employees he/she shall provide, within two (2) weeks, verification from a licensed health care provider or the Division of Public Health that the individual does not pose a threat of transmitting tuberculosis to students or other staff.

2.1.2 ~~Student teachers~~ School Staff and Extended Services Personnel need not be retested if they move from district to district, ~~as part of their student teaching assignments~~ district to charter school, or charter school to charter school within a five year period; however, a copy of the result of the latest Tuberculosis Test shall be provided to the new district or charter school within sixty (60) days.

2.2 Every fifth year, by October 15th, all public school staff and extended services personnel shall complete the Delaware Department of Education TB Health Questionnaire for School Employees or, within two (2) weeks, provide ~~Mantoux tuberculin skin test~~ Tuberculosis Test results administered within the last twelve (12) months.

- 2.2.1 If a school staff member or extended services staff member answers affirmatively to any of the questions in the *Delaware Department of Education TB Health Questionnaire for School Employees* he/she shall provide, within two (2) weeks, verification from a licensed health care provider or the Division of Public Health that the individual does not pose a threat of transmitting tuberculosis to students or other staff.
- 2.3 All documentation related to the School Health Tuberculosis (TB) Control Program shall be retained in the same manner as other confidential personnel medical information.

### 3.0 Volunteers

- 3.1 Volunteers shall complete the *Delaware Department of Education's TB Health Questionnaire for Volunteers in Public Schools* prior to their assignment and every fifth year thereafter.
  - 3.1.1 If the volunteer answers affirmatively to any of the questions, he/she shall provide, within two (2) weeks, verification from a licensed health care provider or the Division of Public Health that the individual does not pose a threat of transmitting tuberculosis to the students or staff.
- 3.2 Each public school nurse shall collect and monitor all documentation related to the volunteer's School Health Tuberculosis (TB) Control Program and store them in the school nurse's office in a confidential manner.

### 4.0 New School Enterers

- 4.1 New school enterers shall show ~~proof of tuberculin~~ provide tuberculosis screening results as described in 4.1.1 and 4.1.2 including from either results from the Mantoux Tuberculin test or the results of a tuberculosis risk assessment a Tuberculosis Test or the results of a Tuberculosis Risk Assessment administered within the past 12 months prior to school entry. Multipuncture skin tests will not be accepted.
  - 4.1.1 If the new school enterer is in compliance with the other school entry health requirements, a school nurse who is trained in the use of the *Delaware Department of Education TB Risk Assessment Questionnaire for Students* may administer the questionnaire to the student's parent(s), guardian(s) or Relative Caregiver or to a new school enterer who has reached the statutory age of majority (18).
    - 4.1.1.1 If a student's parent(s), guardian(s) or Relative Caregiver or a student 18 years or older answers affirmatively to any of the questions, he/she shall, within two (2) weeks, provide proof of ~~Mantoux tuberculin skin test~~ tuberculosis testing results or provide verification from a licensed health care provider or the Division of Public Health that the student does not pose a threat of transmitting tuberculosis to staff or other students.
- 4.2 School nurses shall record and maintain documentation relative to the School Health Tuberculosis (TB) Control Program.

### 5.0 Tuberculosis Status Verification and Follow up

- 5.1 Tuberculosis Status shall be determined through the use of a ~~tuberculosis risk assessment, tuberculin skin test and other testing, which may include x-ray~~ Tuberculosis Risk Assessment, Tuberculosis Test or other testing, which may include x-ray or sputum culture. Individuals who either refuse the ~~tuberculin skin test~~ Tuberculosis Test or have positive reactions to the same, or give positive responses to a tuberculosis risk assessment shall provide verification from a licensed health care provider or the Division of Public Health that the individual does not pose a threat of transmitting tuberculosis to staff or other students.
  - 5.1.1 Verification shall include Mantoux results recorded in millimeters (if test ~~were~~ was administered), or other Tuberculosis Test results, current disease status (i.e. contagious or noncontagious), current treatment (or completion of preventative treatment for ~~TB~~ tuberculosis) and date when the individual may return to his/her school assignment without posing a risk to the school setting.
  - 5.1.2 Verification from a health care provider or Division of Public Health shall be required only once if treatment was completed successfully.

- 5.1.3 Updated information regarding disease status and treatment shall be provided to the public school by October 15 every fifth year if treatment was previously contraindicated, incomplete or unknown.
- 5.1.4 Persons with a positive Tuberculosis Test, without active disease, who do not receive prophylactic treatment shall be excluded from school in the event of showing any signs or symptoms of active, infectious disease as described by the Division of Public Health.
- 5.2 In the event an individual shows any signs or symptoms of active ~~TB~~ tuberculosis infection, he/she ~~must shall~~ be excluded from school until all required medical verification is received by the school. During the specified verification and follow-up an asymptomatic individual, as described by the Division of Public Health, may remain in school until testing and evaluations are completed, but no longer than six (6) weeks.
