The Authority shall apply the following standards, where applicable, in making such findings and determinations:
 - 11.3.1.1 Pollution Control Standard. – The Authority will review information concerning the Applicant as submitted in an Application or as otherwise available to the Authority through independent investigation. As a condition precedent to making a GII Loan, the Authority shall determine that the Applicant intends to maintain and/or is capable of maintaining or providing for the control, abatement, or prevention of land, water, or general environmental pollution within the State. The standards to be considered by the Authority will include, but not be limited to, the environmental situation in the State at the time of filing of the Application, the effect of the Project on the State or of the county or municipality in which

- 11.3.2 Collateral Provisions. – The GII Loan shall be collateralized to the satisfaction of the Authority which shall use standard underwriting procedures to determine such collateralization. In the case of a privately held company, personal guarantees from active owners (whose ownership is 20% or greater) will normally be required.
- 11.3.3 Mandatory Provisions in Closing Documents. – The closing documents for a GII Loan shall state that, if applicable, the Applicant will provide evidence to the Authority that the Applicant maintains property insurance policies on any collateral with the Authority listed as loss payee, as its interests may appear, as well as public liability policies with the Authority listed as additional insured, as its interests may appear.

18.0 SBIR Bridge Grant Assistance

18.1 Program Description

18.1.1 In order to encourage Delaware small businesses to participate in the federal Small Business Innovation Research ("SBIR") program, the Authority has set forth criteria to help maintain continuing SBIR program research and development. The purposes of the SBIR program are to (i) stimulate technological innovation; (ii) use small business to meet federal research and development needs; (iii) encourage the participation by disadvantaged and minority persons in technological innovation; and (iv) increase private sector commercialization of results derived from federal research and development.

18.1.1.1 The SBIR program is divided into three phases. The purpose of SBIR Phase I is to show: (i) that the Assisted Person can do high quality research and development; (ii) that the proposed effort is technically feasible; and (iii) that sufficient progress has been made to justify a much larger federal agency investment in an Assisted Person's project in connection with SBIR's Phase II. An SBIR Phase I Award can be as much as one hundred thousand dollars (\$100,000). The SBIR Phase II is the principal research and development effort, with a duration which normally does not exceed two years. Federal awards for SBIR Phase II are based upon the results of SBIR Phase I and the scientific and technical merit of the SBIR Phase II proposal. The object is to continue the research and development initiated under SBIR Phase I. An SBIR Phase II award can be as much as five hundred thousand dollars (\$500,000). However, the federal government is not obliged to fund any specific Phase II proposal. SBIR Phase III encourages small businesses to seek commercialization funding principally from the private sector (no Federal SBIR funding is provided).

18.1.1.2 The SBIR Bridge Grant Assistance program (the "Program") seeks to permit the Applicant to maintain its staff and continue its research pending SBIR Phase II approval, which may take as long as nine months after the submission of an SBIR Phase II proposal. Thus, a Program grant of financial assistance (an "Award") may be used to help cover the salaries of personnel after completion of Phase I and before Phase II monies become available. In addition, an Award may be used to help defray expenses connected with scientific research, patent search and applications, strategic and business plan development, market research, product planning and product development. Capital equipment and construction or modifications of facilities are not covered.

18.1.2 Award Approval and Standards

18.1.2.1 Findings. - In connection with the approval of an Award, the Authority shall make the findings and determinations required by 29 **Del.C.** §5055 with respect to the Applicant and the Project. The Authority shall apply the following standards in making such findings and determinations:

- 18.1.2.1.1 SBIR Participation. - In order to be eligible for an Award, an Applicant must establish that it has been granted an SBIR Phase I award and has submitted a proposal to the appropriate federal agency for, but has not yet received, SBIR Phase II funding.
- 18.1.2.1.2 Principal Place of Business Standard. - In determining whether an Applicant's principal place of business is in the State, an Applicant shall demonstrate to the Authority that its Delaware operation is either its sole operation or its primary business location.
- 18.1.2.1.3 Economic Benefit Standard. - When applying the "Economic Benefit Standard" the Authority will review the information submitted by an Applicant to determine whether the Project will tend to maintain or provide gainful employment within the State. The standards to be considered will include, but will not be limited to, the wage scale applicable to persons to be employed as a result of the research project, the economic situation in the State, the effect of the project on the tax base of the State, and of the county or municipality in which the project is to be located, and the expected effect that the research project will have on the development of new economic activity within the State.
- 18.1.2.1.4 Employment Standard. - The Authority shall require that an officer or principal of the Applicant certify to the Authority that the Applicant maintains a full-time equivalent of not more than one hundred (100) employees at the time of the Award.
- 18.1.3 Approval. - The Authority may, after applying the foregoing standards, approve a Project and provide an Award to an Applicant up to a maximum of fifty thousand dollars (\$50,000). ~~No more than three (3) Awards will be granted to an Applicant in any five (5) year period. The maximum amount of Awards an Applicant may receive in a lifetime is two hundred thousand dollars (\$200,000).~~ No more than four (4) Awards will be granted to an Applicant in a rolling ten (10) year time period. Additional Awards may be granted by the Authority, but the Authority may, in its discretion, require repayment of such additional awards. An Award may be made, at the sole discretion of the Authority, in a lump sum or in installments. The specific conditions under which the Authority shall make an Award to an Applicant shall be set forth in a commitment letter between the Authority and the Applicant.
- 18.1.4 Post-Award Documentation. - The following documentation shall be required of all Applicants receiving Awards:
 - 18.1.4.1 A summary of the work performed under the Award no later than August 31 of each of the five (5) years following the Award or otherwise as required by the Authority. Such summary shall include projections or documentation of any actual commercialization of the Project (such as patents obtained, new products developed, etc.) and any economic impact (in terms of employment and/ or sales impact with the company, etc.) of such commercialization.
 - 18.1.4.2 Notification of Phase II SBIR award results immediately after the award is made or denied.

If an Applicant has been convicted of such a violation, the Authority, in its sole discretion, may decline to consider the Application. If requested by the Authority, similar proof shall be obtained from any proposed operator or principal user of the Eligible Project.
