## DIVISION OF FISH AND WILDLIFE

Statutory Authority: 7 Delaware Code, Sections 901(c & d) and 903(e)(2)a;  
(7 Del.C. §§901(c & d) & 903(e)(2)a)  
7 DE Admin. Code 3521

### FINAL

**Secretary's Order No.: 2014-F-0017**

**Date of Issuance: August 11, 2014**

**Effective Date of the Amendment: September 11, 2014**

#### **3521 Weakfish Size Limits; Possession Limits; Seasons**

Under the authority vested in the Secretary of the Department of Natural Resources and Environmental Control ("Department" or "DNREC") the following findings, reasons and conclusions are entered as an Order of the Secretary in the above-referenced rulemaking proceeding.

#### **Background and Procedural History**

This Order considers proposed regulatory amendments to Delaware Tidal Finfish Regulation No. 3521 regarding Weakfish. The Department's Division of Fish and Wildlife commenced the regulatory development process with Start Action Notice 2014-03. The Department published the proposed amendments in the May 1, 2014 *Delaware Register of Regulations* and held a public hearing on May 22, 2014. The Department's presiding hearing officer, Lisa A. Vest, prepared a Hearing Officer's Report dated March 1, 2014 (Report). The Report recommends certain findings and the adoption of the proposed regulation amendments as attached to the Report as Appendix A.

#### **Findings and Discussion**

I find that the proposed regulation amendments are well-supported by the record developed by the Department, and adopt the Report to the extent it is consistent with this Order. The Department's experts in the Division of Fish and Wildlife developed the record and drafted the proposed regulation amendments. As a result of the regulatory development process, the Department received public comments supporting this proposed regulation, as discussed in the Report.

The proposed amendments to Delaware's existing regulations for this species are consistent with the Interstate Fisheries Management Plan for Weakfish as adopted by the ASMFC. Moreover, the proposed management strategy will better accommodate commercial fishing needs while continuing to protect the weakfish resource and providing bait for recreational anglers. It should also be noted that all proper notification and noticing requirements concerning this proposed promulgation were met by the Department.

In conclusion, the following findings and conclusions are entered:

- 1.) The Department has jurisdiction under its statutory authority to issue an Order adopting these proposed regulation amendments as final;
- 2.) The Department provided adequate public notice of the aforementioned proposed amendments, and provided the public with an adequate opportunity to comment on said proposed amendments, including at a public hearing;
- 3.) The Department held a public hearing on the proposed regulation amendments in order to consider public comments before making any final decision, and has considered all relevant and timely public comment received;
- 4.) The Department's Hearing Officer's Report, including its recommended record and the recommended proposed regulation amendments, as set forth in Appendix A, are adopted to provide additional reasons and findings for this Order;
- 5.) The recommended final proposed amendments do not reflect any change from the initial proposed amendments as published in the May 1, 2014, *Delaware Register of Regulations*;
- 6.) Promulgation of the proposed regulatory amendments to Delaware Tidal Finfish Regulation No. 3521 will enable Delaware to remain consistent with the Interstate Fisheries Management Plan, as adopted by the ASMFC, to manage Weakfish in Delaware, to wit: (1) modification of the commercial weakfish management approach of intermittent net closures from May 1 through June 30 to an uninterrupted closure (all gears) from May 1 through June 2; (2) allowance of a weakfish bycatch during the closure of up to 100 pounds per day or trip for the commercial gill net fishery and accommodates commercial fishing for species other than weakfish (e.g., Atlantic menhaden and black drum); (3) no impact to the gill net restrictions as established in 7 Del.C.

§923; (4) maintenance of existing recreational closures, as well as catch limits during the open season in all fisheries; and (5) elimination of mailed notices to netters, as the dates are annually published in the Delaware Fishing Guide, which is widely available in print, and is also posted online;

- 7.) The proposed regulation amendments are well supported by documents in the record; and that
- 8.) The Department shall submit this Order approving the final regulation amendments to the *Delaware Register of Regulations* for publication in its next available issue, and provide such other notice as the law and regulation require and the Department determines is appropriate.

David S. Small, Secretary
