CITIZEN PARTICIPATION IN THE REGULATORY PROCESS

Delaware citizens and other interested parties may participate in the process by which administrative regulations are adopted, amended or repealed, and may initiate the process by which the validity and applicability of regulations is determined.

Under 29 Del.C. §10115 whenever an agency proposes to formulate, adopt, amend or repeal a regulation, it shall file notice and full text of such proposals, together with copies of the existing regulation being adopted, amended or repealed, with the Registrar for publication in the Register of Regulations pursuant to §1134 of this title. The notice shall describe the nature of the proceedings including a brief synopsis of the subject, substance, issues, possible terms of the agency action, a reference to the legal authority of the agency to act, and reference to any other regulations that may be impacted or affected by the proposal, and shall state the manner in which persons may present their views; if in writing, of the place to which and the final date by which such views may be submitted; or if at a public hearing, the date, time and place of the hearing. If a public hearing is to be held, such public hearing shall not be scheduled less than 20 days following publication of notice of the proposal in the Register of Regulations. If a public hearing will be held on the proposal, notice of the time, date, place and a summary of the nature of the proposal shall also be published in at least 2 Delaware newspapers of general circulation. The notice shall also be mailed to all persons who have made timely written requests of the agency for advance notice of its regulation-making proceedings.
The opportunity for public comment shall be held open for a minimum of 30 days after the proposal is published in the Register of Regulations. At the conclusion of all hearings and after receipt, within the time allowed, of all written materials, upon all the testimonial and written evidence and information submitted, together with summaries of the evidence and information by subordinates, the agency shall determine whether a regulation should be adopted, amended or repealed and shall issue its conclusion in an order which shall include: (1) A brief summary of the evidence and information submitted; (2) A brief summary of its findings of fact with respect to the evidence and information, except where a rule of procedure is being adopted or amended; (3) A decision to adopt, amend or repeal a regulation or to take no action and the decision shall be supported by its findings on the evidence and information received; (4) The exact text and citation of such regulation adopted, amended or repealed; (5) The effective date of the order; (6) Any other findings or conclusions required by the law under which the agency has authority to act; and (7) The signature of at least a quorum of the agency members.

The effective date of an order which adopts, amends or repeals a regulation shall be not less than 10 days from the date the order adopting, amending or repealing a regulation has been published in its final form in the Register of Regulations, unless such adoption, amendment or repeal qualifies as an emergency under §10119.

Any person aggrieved by and claiming the unlawfulness of any regulation may bring an action in the Court for declaratory relief.

No action of an agency with respect to the making or consideration of a proposed adoption, amendment or repeal of a regulation shall be subject to review until final agency action on the proposal has been taken. When any regulation is the subject of an enforcement action in the Court, the lawfulness of such regulation may be reviewed by the Court as a defense in the action.

Except as provided in the preceding section, no judicial review of a regulation is available unless a complaint therefor is filed in the Court within 30 days of the day the agency order with respect to the regulation was published in the Register of Regulations.

DSSM: 3000 Technical Eligibility for Cash Assistance

In compliance with the State's Administrative Procedures Act (APA - Title 29, Chapter 101 of the Delaware Code) and under the authority of Title 31 of the Delaware Code, Chapter 5, Section 512, Delaware Health and Social Services (DHSS) / Division of Social Services is proposing to amend policies in the Division of Social Services Manual (DSSM) regarding Delaware's Temporary Assistance for Needy Families (TANF) programs, specifically, removing workfare requirements, removing clock extensions, and clearly defining hours for one- and two-parent families.

Any person who wishes to make written suggestions, compilations of data, testimony, briefs or other written materials concerning the proposed new regulations must submit same to Sharon L. Summers, Policy, Program & Development Unit, Division of Social Services, 1901 North DuPont Highway, P.O. Box 906, New Castle, Delaware 19720-0906 or by fax to (302) 255-4425 by Wednesday, March 2, 2011.

The action concerning the determination of whether to adopt the proposed regulation will be based upon the results of Department and Division staff analysis and the consideration of the comments and written materials filed by other interested persons.

SUMMARY OF PROPOSED CHANGES

The proposal described below amends policies in the Division of Social Services Manual (DSSM) regarding Delaware's Temporary Assistance for Needy Families (TANF) programs, specifically, removing workfare requirements, removing clock extensions, and clearly defining hours for one- and two-parent families.

Statutory Authority

- 31 Del.C. §518, Failure to comply with job placement, education, training, work eligibility, parenting or personal responsibility requirements
- 31 Del.C. §501, Legislative intent
- 31 Del.C. §505(1), Categories of Assistance - Aid to Families with Dependent Children
Summary of Proposed Changes

This rule change removes workfare requirements from Division of Social Services (DSS) policy. Removing these restrictions to the types of activities caretakers can engage in as a requirement to receive TANF allows activities to be tailored to the needs, strengths, and goals of clients thereby increasing the likelihood of long term self-sufficiency and allowing the program to be more responsive to the unique needs of each recipient.

The rule change also eliminates the separate State program that provided additional months of TANF for those clients who continued to receive TANF while employed at least 25 hours a month. Anecdotal evidence suggests this policy discourages recipients from accepting increased hours or job advancement at higher wages in order to retain benefits. It also advantages larger families. With the TANF caseload growing, it is one chance to reduce the growth rate. Finally, the policy changes clarify the expectations and required hours of mandatory participants in the TANF employment and training program.

The proposed changes affect the following policy sections:

- DSSM 3002, Time Limit, Temporary Welfare Program
- DSSM 3002, Two-Parent Families - Time Limit, Temporary Welfare Program
- DSSM 3002.2, Single Parent / Non-Parent Caretaker Families
- DSSM 3002.3, Time Limits for Single Parent and Two Parent Families on Assistance Prior To 01/01/2000
- DSSM 3002.9, Exceptions to the Time Limit Counter
- DSSM 3006.1.1, Requiring Participation in Employment and training for One-Parent and single caretaker families
- DSSM 3006.1.2, Requiring Participation in Employment and training for Two-Parent Families
- DSSM 3031, Work For Your Welfare
- DSSM 3031, Hours of Participation – One-Parent Families
- DSSM 3031.2, Hours of Participation – Two-Parent Families
- DSSM 3031.3, Reserved
- DSSM 3031.3.1, Reserved
- DSSM 3031.3.2, Reserved
- DSSM 3031.4, Initiating Work for Your Welfare – Two-Parent Families
- DSS 3031.5, Ending a Work for Welfare Placement

DSSM: 3000 Technical Eligibility for Cash Assistance
who lack other insurance for mental health assessment and counseling services. VCAP is the payer of last resort for these mental health claims. Other health insurance, Medicaid and/or Medicare must pay first, before VCAP pays. This provision is intended to mirror the provisions of recently-enacted Rule 28, covering medical expenses.

This regulation would require that VCAP pay all mental health providers at 80% of the usual and customary charge for services. This amount would be deemed payment in full, and the mental health provider would be unable to collect any additional monies from the victim, or from third parties, through “balance billing”. VCAP would pay any co-payment amounts in full, on approved assessment and treatment. Enactment of this regulation would help preserve and extend the Victims Compensation Assistance Program funds and bring VCAP more in line the practices of insurers and other government programs in paying mental health claims.

Notice of Public Comment:

The Department of Justice Victims Compensation Assistance Program will hold a public hearing on these proposed amendments on Wednesday, February 23, 2011 at 2:00 p.m. at Dover Police Department, 400 S. Queen Street, Dover, DE 19904. Interested persons may submit comments in writing to Barbara Brown, VCAP, 900 King Street, Suite 4, Wilmington Delaware 19801, no later than February 28, 2011. Statements and testimony may be presented either orally or in writing at the public hearing.

301 Victims’ Compensation Assistance Program Rules and Regulations

(Break in Continuity of Sections)

29.0 Payment of Mental Health Claims

29.1 Mental health assessment and counseling expenses shall be paid on behalf of the victim to a qualified mental health practitioner at a rate set by VCAP. If VCAP accepts a claim, the mental health treatment practitioner shall accept the VCAP payment as payment in full, and may not attempt to collect from the victim or third parties any amount exceeding the amount of reimbursement made by VCAP. In the absence of an existing provider agreement, VCAP payments may be accompanied by a notice that provider acceptance constitutes acknowledgement of payment in full.

29.2 VCAP will pay a mental health provider at the rate of 80% of the usual and customary charge for such services. When a third party has made payment, and the victim is responsible for a co-payment, VCAP may reimburse for the amount of the co-payment. VCAP may pay a lesser amount if payment under this section would exceed a statutory or regulatory cap.

29.3 If the usual and customary charge cannot readily be established, or in special circumstances, VCAP may, in its discretion, determine the reasonable charge for the procedure performed or the service rendered.

DIVISION OF PROFESSIONAL REGULATION
1100 Board of Dental Examiners
24 DE. Admin. Code 1100

PUBLIC NOTICE

1100 Board of Dental Examiners

The Board of Dentistry and Dental Hygiene ("the Board") in accordance with 24 Del.C. § 1106(a)(1) has proposed amendments to Rule 4.0 Acupuncture and Rule 8.0 Certificate Requirements. The proposed amendments delete existing Rule 4.0 as it is an outdated provision related to acupuncture. The amendments also modify the exam provision to reflect the change from a specific score to a pass/fail standard. The Board is replacing the deleted Rule 4.0 with a new Rule 4.0 that sets for the criteria required for a specialty rotation to satisfy the requirements of the general practice residency required by 24 Del.C. §1122(a)(3). Finally, the Board is requesting that the Registrar use his editorial powers to change the name of the Board throughout the regulations to reflect the Board's new name. The changes are as the result of the Board's sunset review in the last legislative session.

A public hearing will be held on March 24, 2011 at 4:45 p.m. in the second floor conference room A of the Cannon Building, 861 Silver Lake Boulevard, Dover, Delaware where members of the public can offer comments. Anyone wishing to receive a copy of the proposed rules and regulations may obtain a copy from the Delaware Board of Dentistry and Dental Hygiene, 861 Silver Lake Blvd, Cannon Building, Suite 203, Dover, DE 19904. Persons wishing to submit written comments may forward these to the Board at the above address. The final date to receive written comments will be at the public hearing.

The Board will consider promulgating the proposed regulations at its regularly scheduled meeting following the public hearing.

5 DE Reg. 1251 (12/01/01)
9 DE Reg. 1583 (04/01/06)

7.0 Anesthesia Regulations:

7.1 Definitions:

The following definitions are taken from the Guidelines for Teaching the Comprehensive Control of Pain and Anxiety in Dentistry, American Dental Association, Council on Dental Education (July 1993). These terms refer to the extent of a drug’s depressant effect upon the central nervous system and should not be confused with the route by which the drug is administered.

7.1.1 Analgesia -- the diminution or elimination of pain in the conscious patient.

7.1.2 Local Anesthesia -- the elimination of sensations, especially pain, in one part of the body by the topical application or regional injection of a drug.

7.1.3 Conscious Sedation -- a minimally depressed level of consciousness that retains the patient’s ability to independently and continuously maintain an airway and respond appropriately to physical stimulation and verbal command and that is produced by a pharmacologic or non-pharmacologic method or a combination thereof.
In accord with this definition, the conscious patient is also defined as "one who has intact protective reflexes, including the ability to maintain an airway, and who is capable of rational response to question or command." The drugs and techniques used should carry a margin of safety wide enough to render unintended loss of consciousness unlikely.

For purposes of these regulations, Conscious Sedation Permits shall be divided into two classifications:

- Restricted Permit I -- Conscious Sedation induced by parenteral or enteral or rectal routes. This is not to include the usual and customary pre-operative oral sedation.
- Restricted Permit II -- Conscious Sedation induced by nitrous oxide inhalation.

7.1.4 Deep Sedation -- is a controlled state of depressed consciousness accompanied by partial loss of protective reflexes, including the inability to continually maintain an airway independently and/or to respond purposefully to verbal command, and is produced by a pharmacologic or non-pharmacologic method or combination thereof.

7.1.5 General Anesthesia -- is a controlled state of unconsciousness accompanied by partial or complete loss of protective reflexes, including inability to independently maintain an airway and respond purposefully to physical stimulation or verbal command, and is produced by a pharmacologic or non-pharmacologic method or a combination thereof.

The same level of advanced training is necessary for the administration of both Deep Sedation and General Anesthesia.

7.1.6 Adverse Occurrences -- any mortality or other incident occurring in the out-patient facilities of such dentist which results in temporary or permanent physical or mental injury requiring hospitalization of said patient during, or as a direct result of, the conscious sedation, or deep sedation, or general anesthesia related thereto.

7.2 Conscious Sedation:

7.2.1 No dentist shall employ or use Conscious Sedation, Restricted Permit I or Restricted Permit II, for dental patients unless such dentist possesses a permit of authorization issued by the Delaware State Board of Dental Examiners. The dentist holding such a permit shall be subject to review and such permit must be renewed biennially.

7.2.2 In order to receive such a permit, the dentist shall produce evidence showing that he or she:

7.2.2.1 For Restricted Permit I Conscious Sedation:

- 7.2.2.1.1 Has completed a minimum of 60 hours of instruction, including management of at least 20 patients per participant (to achieve competency in this technique).
- 7.2.2.1.2 Must be certified in CPR as documented by the American Heart Association or the American Red Cross. Advanced Cardiac Life Support Certification is encouraged.
- 7.2.2.1.3 Must also have a properly equipped facility for the administration of Restricted Permit I Conscious Sedation, staffed with a supervised team of auxiliary personnel capable of reasonably handling procedures, problems and emergencies incident thereto. Adequacy of the facility and competency of the team is to be determined by the Anesthesia Advisory Consultants appointed by the Board. A certified registered nurse anesthetist may be utilized for Restricted Permit I Conscious Sedation only if the dentist also possesses such a permit.

7.2.3 A list of emergency drugs and equipment that should be on hand would consist of the following:

7.2.3.1 Agents capable of treating:
- 7.2.3.1.1 hypotension and bradycardia
- 7.2.3.1.2 allergy/bronchospasm
- 7.2.3.1.3 seizures
- 7.2.3.1.4 narcotic-induced respiratory depression (e.g., narcotic antagonists)
- 7.2.3.1.5 angina pectoris
- 7.2.3.1.6 adrenal insufficiency (e.g., steroids)
- 7.2.3.1.7 nausea
7.2.3.2 Equipment necessary to provide artificial respiration and assist in airway maintenance.

7.2.3.3 Equipment necessary to establish an intravenous infusion and to inject medications.

7.2.4 For Restricted Permit II Conscious Sedation:

7.2.4.1 Has completed a minimum of 14 instructional hours including supervised clinical experience in managing patients (in a course required to achieve competency in nitrous oxide inhalation sedation).

7.2.4.2 Must also show certification in cardio-pulmonary resuscitation as certified by the American Heart Association or the American Red Cross.

7.3 Deep Sedation and General Anesthesia (Unrestricted Permit):

7.3.1 No dentist shall employ or use deep sedation or general anesthesia for his/her dental patients unless such dentist possesses a permit of authorization issued from the Delaware State Board of Dentistry and Dental Hygiene. This permit also includes all Conscious Sedation techniques. The dentist holding such a permit shall be subject to review and such permit must be renewed biennially.

7.3.2 In order to receive such a permit, the dentist must produce evidence showing that he/she:

7.3.2.1 Has completed a minimum of two years of advanced training in anesthesiology and related academic subjects (or its equivalent) beyond the undergraduate dental school level in a training program as described in Part II of the Guidelines for Teaching the Comprehensive Control of Pain and Anxiety in Dentistry or, is a Diplomate of the American Board of Oral and Maxillofacial Surgeons, or has satisfactorily completed a residency in Oral and Maxillofacial Surgery at an institution approved by the Council of Dental Education, American Dental Association, or is a fellow of the American Dental Society of Anesthesiology, or employs or works in conjunction with a trained M.D. or D.O. who is a member of the anesthesiology staff of an accredited hospital, provided the anesthesiologist must remain on the premises of the dental facility until any patient given a general anesthetic or deep sedation regains consciousness. A certified registered nurse anesthetist may be utilized for deep sedation or general anesthesia only if the dentist also possesses an Unrestricted Permit.

7.3.2.2 Has a properly equipped facility for the administration of deep sedation and general anesthesia, staffed with a supervised team of auxiliary personnel capable of reasonably handling procedures, problems and emergencies incident thereto. Adequacy of the facility and competence of the anesthesiology team is determined by the Anesthesia Advisory Committee Consultants appointed by Delaware State Board of Dentistry and Dental Hygiene.

7.3.2.3 And is certified in Advanced Cardiac Life Support by the American Heart Association.

7.4 Facility and Staff Requirements:

7.4.1 Inspections: Prior to the issuance of a permit for Restricted Permit I (parenteral, enteral, or rectal Conscious Sedation) or an Unrestricted Permit (Deep Sedation or General Anesthesia), the Board shall require an on site inspection of the facility, equipment and personnel to determine if, in fact, the aforementioned requirements have been met. The evaluation shall be carried out in a manner described by the Board. The evaluation shall be carried out by the Anesthesia Advisory Consultants appointed by the Board. Each office that the dentist utilizes for Restricted Permit I Conscious Sedation or Deep Sedation or General Anesthesia requires individual inspection and must meet the requirements of that permit for which the dentist is applying.

7.4.2 Anesthesia Advisory Consultants:

7.4.2.1 The Board of Dental Examiners shall appoint a team of Advisory Consultants and alternates who will visit the facility concurrently to conduct the on-site inspection and evaluation of the facilities, equipment and personnel of a licensed dentist applying for written authorization to administer or to employ another to administer Restricted Permit I Conscious Sedation, or Deep Sedation or General Anesthesia (Unrestricted Permit). The Advisory Consultants shall also aid the Board in the adoption of
criteria and standards relative to the regulation and control of Conscious Sedation, Deep Sedation and General Anesthesia. The Anesthesia Advisory Consultants shall utilize the “Guidelines for the use of conscious sedation, deep sedation and general anesthesia for Dentist”, as approved by the American Dental Association in October 1996, or any current update thereof. If the applicant has been satisfactorily evaluated by another similar organization (e.g., the Delaware Society of Oral and Maxillofacial Surgeons which uses the AAOMS Office Anesthesia Evaluation Manual Standards), then the Board may accept this evaluation and not require additional on-site evaluation.

7.4.2.2 If the results of the initial evaluation of an applicant are deemed unsatisfactory, upon written request of the applicant, a second evaluation shall be conducted by a different team of consultants.

9.0 Voluntary Treatment Option for Chemically Dependent or Impaired Professionals

9.1 If the report is received by the chairperson of the regulatory Board, that chairperson shall immediately notify the Director of Professional Regulation or his/her designee of the report. If the Director of Professional Regulation receives the report, he/she shall immediately notify the chairperson of the regulatory Board, or that chairperson’s designee or designates.
9.2 The chairperson of the regulatory Board or that chairperson's designate or designates shall, within 7 days of receipt of the report, contact the individual in question and inform him/her in writing of the report, provide the individual written information describing the Voluntary Treatment Option, and give him/her the opportunity to enter the Voluntary Treatment Option.

9.3 In order for the individual to participate in the Voluntary Treatment Option, he/she shall agree to submit to a voluntary drug and alcohol screening and evaluation at a specified laboratory or health care facility. This initial evaluation and screen shall take place within 30 days following notification to the professional by the participating Board chairperson or that chairperson's designate(s).

9.4 A regulated professional with chemical dependency or impairment due to addiction to drugs or alcohol may enter into the Voluntary Treatment Option and continue to practice, subject to any limitations on practice the participating Board chairperson or that chairperson's designate or designates or the Director of the Division of Professional Regulation or his/her designate may, in consultation with the treating professional, deem necessary, only if such action will not endanger the public health, welfare or safety, and the regulated professional enters into an agreement with the Director of Professional Regulation or his/her designate and the chairperson of the participating Board or that chairperson's designate for a treatment plan and progresses satisfactorily in such treatment program and complies with all terms of that agreement. Treatment programs may be operated by professional Committees and Associations or other similar professional groups with the approval of the Director of Professional Regulation and the chairperson of the participating Board.

9.5 Failure to cooperate fully with the participating Board chairperson or that chairperson's designate or designates or the Director of the Division of Professional Regulation or his/her designate in regard to the Voluntary Treatment Option or to comply with their requests for evaluations and screens may disqualify the regulated professional from the provisions of the Voluntary Treatment Option, and the participating Board chairperson or that chairperson's designate or designates shall cause to be activated an immediate investigation and institution of disciplinary proceedings, if appropriate, as outlined in section 9.8.

9.6 The Voluntary Treatment Option may require a regulated professional to enter into an agreement which includes, but is not limited to, the following provisions:

9.6.1 Entry of the regulated professional into a treatment program approved by the participating Board. Board approval shall not require that the regulated professional be identified to the Board. Treatment and evaluation functions must be performed by separate agencies to assure an unbiased assessment of the regulated professional's progress.

9.6.2 Consent to the treating professional of the approved treatment program to report on the progress of the regulated professional to the chairperson of the participating Board or to that chairperson's designate or designates or to the Director of the Division of Professional Regulation or his/her designate at such intervals as required by the chairperson of the participating Board or that chairperson's designate or designates shall cause to be activated an immediate investigation and institution of disciplinary proceedings, if appropriate, as outlined in section 9.8.

9.6.3 Consent of the regulated professional, in accordance with applicable law, to the release of any treatment information from anyone within the approved treatment program.

9.6.4 Agreement by the regulated professional to be personally responsible for all costs and charges associated with the Voluntary Treatment Option and treatment program(s). In addition, the Division of Professional Regulation may assess a fee to be paid by the regulated professional to cover administrative costs associated with the Voluntary Treatment Option. The amount of the fee imposed under this subparagraph shall approximate and reasonably reflect the costs necessary to defray the expenses of the participating Board, as well as the proportional expenses incurred by the Division of Professional Regulation in its services on behalf of the Board in addition to the administrative costs associated with the Voluntary Treatment Option.

9.6.5 Agreement by the regulated professional that failure to satisfactorily progress in such treatment program shall be reported to the participating Board's chairperson or his/her designate or designates or to the Director of the Division of Professional Regulation or his/her designate by the
treated professional who shall be immune from any liability for such reporting made in good faith and without malice.

9.6.6 Compliance by the regulated professional with any terms or restrictions placed on professional practice as outlined in the agreement under the Voluntary Treatment Option.

9.7 The regulated professional's records of participation in the Voluntary Treatment Option will not reflect disciplinary action and shall not be considered public records open to public inspection. However, the participating Board may consider such records in setting a disciplinary sanction in any future matter in which the regulated professional's chemical dependency or impairment is an issue.

9.8 The participating Board's chairperson, his/her designate or designates or the Director of the Division of Professional Regulation or his/her designate may, in consultation with the treating professional at any time during the Voluntary Treatment Option, restrict the practice of a chemically dependent or impaired professional if such action is deemed necessary to protect the public health, welfare or safety.

9.9 If practice is restricted, the regulated professional may apply for unrestricted licensure upon completion of the program.

9.10 Failure to enter into such agreement or to comply with the terms and make satisfactory progress in the treatment program shall disqualify the regulated professional from the provisions of the Voluntary Treatment Option, and the participating Board shall be notified and cause to be activated an immediate investigation and disciplinary proceedings as appropriate.

9.11 Any person who reports pursuant to this section in good faith and without malice shall be immune from any civil, criminal or disciplinary liability arising from such reports, and shall have his/her confidentiality protected if the matter is handled in a nondisciplinary matter.

9.12 Any regulated professional who complies with all of the terms and completes the Voluntary Treatment Option shall have his/her confidentiality protected unless otherwise specified in a participating Board's rules and regulations. In such an instance, the written agreement with the regulated professional shall include the potential for disclosure and specify those to whom such information may be disclosed.

Purpose:
This regulation clarifies eligibility to take the practical (clinical) examination in dentistry and dental hygiene administered by the Board.

10.1 No person shall be eligible to take the practical (clinical) examination in dentistry administered by the Delaware Board of Dental Examiners Dentistry and Dental Hygiene unless the applicant has received a degree in dentistry from an accredited dental college or university accredited by the Commission on Dental Accreditation of the American Dental Association.

9 DE Reg. 77 (7/1/05)
11.0 Crimes Substantially Related to the Practice of Dentistry and Dental Hygiene.

Authority:

Pursuant to 74 Del. Laws. c.262, (Senate Bill No. 229 of the 142nd General Assembly, 2004, as amended), the Board was directed to promulgate regulations specifically identifying those crimes which are substantially related to the practice of dentistry and dental hygiene.

Purpose:

The Board of Dental Examiners Dentistry and Dental Hygiene believes that the State of Delaware has a compelling public policy interest in ensuring that its licensed professionals not only have specified levels of educational and professional competence but also possess sufficient character and judgment necessary to practice safely in their chosen fields and to do so in a manner which will not undermine the community’s confidence in the expertise and professionalism of the members of the profession. Licensed professionals, particularly those in health care related fields, often come into contact with clients and patients and other members of the public at times when they may be sick, infirm or otherwise extremely vulnerable to undue influence or other forms of misuse, fraud and abuse. It is therefore critical that all reasonable steps are taken to determine, to the extent possible, that at the regulation of such professionals takes into consideration not only the individual’s technical competence but his or her demonstrated propensity to behave in a way that does not expose the client population to risk or diminish legitimate expectations of honest and honorable behavior by such licensed health care professionals. Therefore, the Board finds that for purposes of licensing, renewal, reinstatement and discipline, the conviction of any of the following crimes, or of the attempt to commit or a conspiracy to commit or conceal the following crimes or substantially similar crimes in another state or jurisdiction, is deemed to be substantially related to the practice of Dentistry and Dental Hygiene in the State of Delaware without regard to the place of conviction:

Definitions.

“Conviction”, unless otherwise defined by specific statute, means a verdict of guilty by whether entered by a judge or jury, or a plea of guilty or a plea of nolo contendere or other similar plea such as a “Robinson” or “Alford” plea unless the individual has been discharged under §4218 of Title 11 of the Delaware Code (probation before judgment) or under §1024 of Title 10 (domestic violence diversion program) or by §4764 of Title 16 (first offenders controlled substances diversion program).

“Substantially similar crimes in another state or jurisdiction” includes all crimes prohibited by or punishable under Title 18 of the United Stated Code Annotated (U.S.C.A.) such as, but not limited to, Federal Health Care offenses.

PUBLIC NOTICE

4400 Delaware Manufactured Home Installation Board

Pursuant to 24 Del.C. §4416(b)(1), the Manufactured Home Installation Board has proposed revisions to its rules and regulations.

A public hearing on proposed revisions published on November 1, 2010 in the Register of Regulations, Volume 14, Issue 5 was held on November 22, 2010. The Manufactured Home Installation Board decided to make further revisions to the rules and regulations.

A public hearing to address these proposed revisions will be held on March 14, 2011 at 9:15 a.m. in the second floor conference room B of the Cannon Building, 861 Silver Lake Boulevard, Dover, Delaware, where members of the public can offer comments. Anyone wishing to receive a copy of the proposed rules and regulations may obtain a copy from the Manufactured Home Installation Board, 861 Silver Lake Boulevard, Dover, Delaware 19904. Persons wishing to submit written comments may forward these to the Board at the above address. The final date to receive written comments will be at the public hearing.

The Board has proposed revisions to Rule 9.0. The Board’s licensing law, Chapter 44 of Title 24 of the Delaware Code, provides that all manufactured home installations must be performed, at minimum, in compliance with the requirements of the United States Department of Housing and Urban Development (“HUD”). See 24 Del.C. §4421. The revisions to Rule 9.0 expressly incorporate HUD’s installation requirements. In particular, the rules reference specific sections of the Code of Federal Regulations. The revisions also specify that, with respect to site suitability (Rule 9.2), site preparation (Rule 9.3) and foundation construction (Rule 9.4), where State, county or municipal standards are more stringent than HUD requirements, the installer shall comply with the more stringent standards.

These amendments will make explicit what is already included in the Board’s licensing law and will, therefore, provide greater clarity and greater protection for the public.

The Board will consider promulgating the proposed rules and regulations at its regularly scheduled meeting following the public hearing.

PUBLIC NOTICE

2313 Policies and Procedures for Acquisition of Certain Real Property Interests

Background

The Delaware Department of Transportation, through its Division of Planning, seeks to adopt regulations to ensure that its policies and procedures for the acquisition of real property are transparent, consistent, cost effective and fair.

The Department has broad statutory authority to acquire property in connection with state highway projects. However, an “Advanced Acquisition Committee” must review certain acquisitions of real property after the approval of the preferred alternative. The Department has adopted policies governing such acquisitions; nonetheless, these existing policies only apply to purchases of “fee simple” interests, and do not expressly apply to reservations. While the Committee has the statutory authority to determine whether certain advanced acquisitions are consistent with state planning goals, it does not currently have in place a process for reviewing the merits of such transactions.

The regulations below will implement specific recommendations for advanced acquisitions set forth in the Report of the Governor’s Chief of Staff to Governor Markell dated January 7, 2011 (the “Report”). Specifically, the regulations will (1) require that the Committee review not only advanced acquisitions, but reservation agreements as well; (2) provide a process for the Committee to review the merits of advanced acquisitions and reservation agreements; (3) require the Department to obtain independent appraisal for advanced acquisitions and reservations; (4) require that advanced acquisitions and reservations be reviewed by legal counsel; (5) require that the terms of advanced acquisitions and reservations be reflected in an agreement signed by the Department and the property owner; and (6) set out the process for the Committee to conduct its consistency review of certain real property acquisitions proposed by the Department, as contemplated by 17 Del.C. §137(a)(2).

Public Comment Period

The Department will take written comments on the proposed Regulations Establishing Policies and Procedures for Acquisition of Certain Real Property Interests from February 1, 2011 through March 5, 2011. The proposed Regulations appear below.

Any requests for copies of the proposed Regulations, or any questions or comments regarding this document should be directed to:

2313 Policies and Procedures for Acquisition of Certain Real Property Interests.

1.0 Purpose.

The Department of Transportation has broad statutory authority to acquire public or private property and property rights in connection with the Department's jurisdiction. Traditionally, the Department has acquired the necessary property rights upon final right-of-way plan approval for a project. In certain instances, the best interests of the state and individual property owners may be better served if such interests are either acquired or reserved by the Department prior to right-of-way plan approval. The purpose of this regulation is to enumerate specific policies and procedures governing the acquisition and reservation of certain real property by the Department. It also sets out the process for the Committee to conduct its consistency review of certain real property acquisitions proposed by the Department, as contemplated by 17 Del.C. §137(a)(2).

2.0 Definitions.

“Advanced acquisition” means the acquisition by the Department of any interest in real property prior to final right-of-way plan approval of the project for which such interest is being acquired. For purposes of this regulation and the Department's Real Estate Manual, “advanced acquisitions” shall also include, without limitation, reservations.

“Advanced Acquisition Committee” or “Committee” means the committee created pursuant to 17 Del.C. §137(a)(2) and comprised of the Secretary of the Department of Natural Resources and Environmental Control, the Secretary of the Department of Transportation, the Secretary of the Department of Agriculture, the Director of the Delaware Economic Development Office, the Governor’s Chief of Staff, a member of the Senate designated by the President Pro Tempore of the Senate, a member of the House of Representatives designated by the Speaker of the House of Representatives, a member of the public designated by the President Pro Tempore of the Senate, and a member of the public designated by the Speaker of the House of Representatives.

“Consistency review” shall mean the review by the Committee pursuant to 17 Del.C. §137(a)(2) of acquisitions for new corridors, expansion of existing corridors, or the acquisition of real property as part of the Department's Corridor Capacity Preservation Program.

“Corridor” means a particular route of one or more highways of this State, serving predominantly statewide and/or regional travel needs. By way of example and not limitation, State Routes 1, 2, and 141, and U.S. Routes 13, 113, and 202 are corridors under this definition.

“Department” means the Delaware Department of Transportation.

“Expansion of existing corridors” means the proposed construction of additional through lanes for a minimum of three miles, such as to significantly increase the traffic-carrying capacity of a corridor already in existence at the time of the proposed capital improvement. By way of example and not limitation, the dualization of U.S. Route 113 between Milford and Georgetown, and the State Route 1 Third Lane project between Rehoboth Avenue Extended and the Five Points intersection with U.S. Route 9, would have been considered expansions of existing corridors under this definition at the time of their planning and construction.

“Hardship acquisition” shall mean an advanced acquisition to resolve a specific hardship imposed upon the owner as a result of a project including, without limitation, long-term leases and reservations between an owner and the Department. Hardship acquisitions shall include situations in which an owner must relocate for personal reasons (e.g., job transfer, death in the family, retirement plans or medical reasons) and is unable to sell his or her property as a result of a project.

“New corridor” means a proposed capital improvement for a corridor-level highway, all or substantially all of which is to be built on previously unused alignment. By way of example and not limitation, the tolled portion of State Route 1 through Kent and New Castle County would have been considered a new corridor under this definition, at the time of its planning and eventual construction.

“Owner” shall mean the owner of the real property interest, which the Department seeks to acquire or reserve.
“Preferred alternative” shall mean the alternative that the Department believes would fulfill its statutory mission and responsibilities giving consideration to economic, environmental, technical and other factors.

“Project” means an undertaking for a capital improvement by the Department for a new corridor, expansion of an existing corridor, or acquisition of real property as part of the Corridor Capacity Preservation, and which uses state and/or federal funds.

“Protective acquisition” shall mean an advanced acquisition to allow the Department to protect from development real property within a project area in instances where development would increase the eventual cost of property acquisition to taxpayers or would limit location alternatives for the project. Protective acquisitions shall include, without limitation, long-term leases and reservations to allow the Department to protect from development real property within a project area.

“Real Property” means a fee simple interest in real estate for any such acquisition, and shall also include any lesser property interest proposed for acquisition under the Corridor Capacity Preservation Program (17 Del.C. §145).

“Reservation” means a commitment by the Department to compensate an owner of any interest in real property, in exchange for an agreement by the owner to refrain from further developing his or her property or designated portions thereof.

3.0 Hardship Acquisition.

3.1 Depending upon the availability of funding, the Department may consider requests by owners for hardship acquisitions.

3.2 Written Request - The owner of the real property must submit to the Department a written request for a hardship acquisition.

3.1.1 A request for hardship acquisition of property located in New Castle County shall be submitted to the:

North District Real Estate Manager
Delaware Department of Transportation
250 Bear Christiana Road
Bear, DE 19701

3.1.2 A request for hardship acquisition of property located in Kent County or Sussex County shall be submitted to the:

South District Real Estate Manager
Delaware Department of Transportation
P.O. Box 778
Dover, DE 19903

3.3 Criteria. Upon receipt of a written request for a hardship acquisition, the Department and its legal counsel shall initiate an internal review process to determine whether the property meets the criteria set forth herein. At minimum, the request must demonstrate to the Department’s satisfaction that:

3.3.1 The property has been marketed for at least six (6) months; and

3.3.2 The realtor, or owner in absence of a realtor, must certify and provide evidence that he or she is unable to sell the property at a reasonable price as a result of the proposed project; and

3.4 If an owner demonstrates to the Department’s satisfaction that a hardship acquisition is appropriate, then such proposed acquisition shall be considered in accordance with the procedures set forth in Section 5.0.
4.0 **Protective Acquisition.**

4.1 Depending upon the availability of funding, the Department may consider requests for protective acquisitions.

4.2 **Written Request -** All requests for a protective acquisition must be in writing.

5.0 **Procedures for Review and Approval of Advanced Acquisitions.**

5.1 For advanced acquisitions satisfying the criteria set forth in Section 3.2 or 4.2, as the case may be, the Department shall have an appraisal performed by its independent appraisers in accordance with the Department's Real Estate Manual.

5.2 Following receipt of the appraisal, the Department and its legal counsel shall discuss the potential terms of an agreement and the justifications therefor, including the nature of the interest to be acquired (i.e., acquisition, reservation, leasehold); the necessity of acquiring such interest and the existence of any alternative transactions; the fair market value of such interest; the amount of land required; the duration of the agreement; and such other factors as may be relevant. Following such discussion, counsel shall prepare a detailed term sheet reflecting the material terms of the proposed transaction.

5.3 The Department will present the term sheet to the Advanced Acquisition Committee at a scheduled meeting as soon as reasonably practicable. 5.4 The material terms of all advanced acquisitions shall be reflected in an agreement prepared or reviewed by the Department’s legal counsel and signed by the owner and an authorized representative of the Department. For any agreements entered into prior to the effective date of this regulation but for which no contract exists that (a) sets forth the material terms of such agreement and (b) is signed by both the Department and owner, the parties thereto shall execute an agreement in conformance with this Section 5.4 no later than May 31, 2011.

acquisitions.

6.2 The consistency review shall confirm that the Department’s proposed real property acquisitions further
the State’s overall goals for land use planning, as expressed by project authorizations and
appropriations adopted by the General Assembly.

6.3 At the scheduled meeting for the consistency review, the Department shall present to the Committee
such evidence as it deems necessary to demonstrate that the proposed acquisitions are consistent
with state planning goals. This evidence shall include:

Administration.

6.4 If the Committee determines that the proposed acquisition is consistent with state planning goals, it

Medicaid Recovery Audit Contractor Program

NATURE OF THE PROCEEDINGS:

Delaware Health and Social Services ("Department") / Division of Medicaid and Medical Assistance (DMMA) initiated proceedings to amend the Title XIX Medicaid State Plan regarding the Medicaid Recovery Audit Contractor Program. The Department's proceedings to amend its regulations were initiated pursuant to 29 Delaware Code Section 10114 and its authority as prescribed by 31 Delaware Code Section 512.

The Department published its notice of proposed regulation changes pursuant to 29 Delaware Code Section 10115 in the December 2010 Delaware Register of Regulations, requiring written materials and suggestions from the public concerning the proposed regulations to be produced by December 31, 2010 at which time the Department would receive information, factual evidence and public comment to the said proposed changes to the regulations.

SUMMARY OF PROPOSAL

The proposal amends the Title XIX Medicaid State Plan to comply with section 6411 of the Affordable Care Act which amends section 1902(a)(42) of the Social Security Act (the Act) requiring States to establish programs to contract with RACs to audit payments to Medicaid providers by December 31, 2010.

Statutory Authority

The Patient Protection and Affordable Care Act, Public Law 111-148, Section 6411, Expansion of the Recovery Audit Contractor (RAC) program

Background

State Medicaid RACs

Under Section 1902(a)(42)(B)(i) of the Act, States and Territories are required to establish programs to contract with one or more Medicaid RACs for the purpose of identifying underpayments and overpayments and recouping overpayments under the State plan and under any waiver of the State plan with respect to all services for which payment is made to any entity under such plan or waiver. States must establish these programs in a manner consistent with State law and generally in the same manner as the Secretary contracts with contingency fee contractors for the Medicare RAC program.
The Centers for Medicare and Medicaid Services (CMS) will allow States to maintain flexibility in the design of Medicaid RAC program requirements and the number of entities with which the States elect to contract within the parameters of the statutory requirements. There are a number of operational and policy considerations in State Medicaid RAC program design (some of which will be discussed in greater depth in future rulemaking) such as:

- Qualifications of Medicaid RACs;
- Required personnel - for example physicians and certified coders;
- Contract duration;
- RAC responsibilities;
- Timeframes for completion of audits/recoveries;
- Audit look-back periods;
- Coordination with other contractors and law enforcement;
- Appeals; and
- Contingency fee considerations.

Contingency Fees

Sections 1902(a)(42)(B)(ii)(I) and (II) of the Act provide that payments to Medicaid RACs are to be made only from amounts “recovered” on a contingent basis for collecting overpayments and in amounts specified by the State for identifying underpayments. CMS will not dictate contingency fee rates, but will establish a maximum contingency rate for which Federal Financial participation (FFP) will be available. This rate will be the highest contingency fee rate that is paid by CMS under the Medicare RAC program.

Appeals

Section 1902(a)(42)(B)(ii)(III) of the Act requires States to have an adequate process for entities to appeal any adverse decisions made by the Medicaid RACs. Each State has existing administrative appeals processes with respect to audits of Medicaid providers. So long as States are able to accommodate Medicaid RAC appeals within their existing Medicaid provider appeal structure, CMS is not requiring States to adopt a new administrative review infrastructure to conduct Medicaid RAC appeals.

Reporting

States will be required to report to CMS their contingency fee rates, along with other Medicaid RAC contract metrics such as the number of audits conducted, recovery amounts, number of cases referred for potential fraud, contract periods of performance, contractors’ names, and other factors such as whether a State has implemented provider or service-specific Medicaid RACs. States will report certain elements of this information via the quarterly Form CMS-64, and other information via separate data reporting forms CMS will require.

Coordination

Section 1902(a)(42)(B)(ii)(IV)(cc) of the Act requires that CMS ensure that States and their Medicaid RACs coordinate their recovery audit efforts with other entities.

Summary of Proposal

In accordance with the statutory requirements of Section 6411 of the Affordable Care Act, the Division of Medicaid and Medical Assistance (DMMA) intends to submit a State plan amendment (SPA) through which Delaware will attest that it will establish a compliant Medicaid RAC program by December 31, 2010. State programs to contract with Medicaid RACs are not required to be fully operational by December 31, 2010. However, CMS expects States to fully implement their RAC programs by April 1, 2011.

The provisions of this state plan amendment are subject to approval by the Centers for Medicare and Medicaid Services (CMS).

Fiscal Impact Statement
This revision imposes no increase in cost on the General Fund; however, there is the potential for administrative and system change costs.

SUMMARY OF COMMENTS RECEIVED WITH AGENCY RESPONSE

The State Council for Persons with Disabilities (SCPD) offered the following observations and recommendations summarized below. The Division of Medicaid and Medical Assistance (DMMA) has considered each comment and responds as follows.

Consistent with the “Background” section of this proposed regulation, the DMMA is required by a change in federal law (Affordable Care Act) to contract with one or more entities to conduct audits of Medicaid providers to identify overpayments and underpayments. The contractors would be paid for overpayments on a contingency fee basis out of amounts recovered. Contractors would be paid for underpayments based on a rate to be determined by DMMA. DMMA must amend the State Plan by December 31, 2010 to comply with federal law and ensure implementation by April 1, 2011.

SCPD has misgivings about a model in which the auditor is compensated through identification of overpayments. Logically, this may lead to any benefit of doubt in “gray” areas being resolved against the medical provider and prompt “overzealous” collection. As a result, providers may simply withdraw from the Medicaid program. This concern is partially offset by the Plan amendment provision that the contractor would be “paid an equivalent percentage contingency fee for the identification of underpayments.” However, in theory, audit results could be skewed if there are offsetting overpayments and underpayments. For example, it would be against the auditor’s interests to identify offsetting overpayments and underpayments since the auditor could then be paid zero. The same zero payment occurs if no overpayment or underpayment is identified.

Since this initiative is prompted by CMS, SCPD endorses a Plan amendment by December 31, 2010. However, the Council recommends that DMMA adopt arrangements with audit contractors which promote application of principled restraint in audits. If medical providers are set by auditors with a “feeding frenzy” orientation, the result may be a mass exodus from participation in the Medicaid program. Findings should be based on definitive evidence of incorrect payment and the appeal process could include some informal options which supplement the administrative hearing process.

Agency Response: The Recovery Audit Contractor (RAC) will be required to maintain quality customer service to providers as well as demonstrate that they have experience in successfully conducting audits. There will be reporting requirements, staffing requirements and processes; and, reports that will be approved by DMMA. DMMA will work closely with the RAC and the providers to ensure compliance with RAC and CMS requirements.

FINDINGS OF FACT:

The Department finds that the proposed changes as set forth in the December 2010 Register of Regulations should be adopted.

THEREFORE, IT IS ORDERED, that the proposed regulation regarding the Medicaid Recovery Audit Contractor Program is adopted and shall be final effective February 10, 2011.

4.10.3 **No handwashing or disposal.** A warewashing sink may not be used for handwashing or disposal of liquid wastes.

4.10.4 **Grease trap connection.** Connection to a properly sized grease trap is REQUIRED.

4.10.5 **Alternative use provision for warewashing sink.** If the warewashing sink will be used for washing or thawing food, a separate wasteline connection from each sink compartment through an air-gap into a floor sink is REQUIRED. The installation of a properly sized grease trap downstream of the floor sink is REQUIRED. Alternative use of a warewashing sink for food preparation requires prior approval from the Delaware Division of Public Health.

4.11 **Service Sinks** (for use as a janitorial sink, utility sink or mop sink)

4.11.1 **Installation location.** Wherever practical, fixture service sink must be installed outside of the food preparation, food dispensing, food storage and warewashing areas.

4.16.3 **Sizing procedures.** Follow these procedures for sizing a grease trap to a specific fixture:

4.16.3.1 Determine the liquid volume of the fixture in cubic inches (cu in) draining to the grease trap.

4.16.3.2 Determine the liquid capacity of the fixture in gallons (gal).

4.16.3.3 Determine the actual drainage load (75% of fixture capacity).

4.16.3.4 Determine the unit flow rate minimum for drainage period of 2 minutes.

4.16.3.5 Determine the unit liquid holding capacity minimum (40% of fixture capacity).

4.16.3.6 Select a unit corresponding to minimum unit flow rate and liquid holding capacity.
Table 4.16.3a
EXAMPLE OF SIZING FOR GREASE TRAP SELECTION

Select a grease trap for a three compartment warewashing sink with bowl dimensions of 18" W x 24" L x 12" D
1. Volume = (18in x 24in x 12in) x 3 cmpts = (5,184 cu in) x 3 = 15,552 cubic inches
2. Capacity = Volume (cu in) / 231 (cu in/gal) = 15,552 / 231 = 67.3 gallons
3. Drainage load = 67.3 gal x 0.75 = 50.4, or approx. 50 gallons
4. Unit flow rate minimum = 50 gallons / 2 minutes = 25 gallons per minute (gpm)
   Unit liquid holding capacity minimum = 67.3 x 0.40 = 26.9 gallons
5. Select a grease trap with a minimum flow rate equal to or greater than **25 gpm**
   The selected trap also must have a minimum liquid holding capacity of 26.9 gal.

ORDER

Delaware Temporary Assistance for Needy Families (TANF) Employment and Training Program

Nature of the Proceedings:

Delaware Health and Social Services (“Department”) / Division of Social Services initiated proceedings to provide information of public interest with respect to the Delaware TANF Employment and Training Program regarding Mandatory Participants. The Department's proceedings were initiated pursuant to 29 Delaware Code Section 10114 and its authority as prescribed by 31 Delaware Code Section 512.

The Department published its notice of public comment pursuant to 29 Delaware Code Section 10115 in the December 2010 Delaware Register of Regulations, requiring written materials and suggestions from the public concerning the proposed regulations to be produced by December 31, 2010 at which time the Department would receive information, factual evidence and public comment to the said proposed changes to the regulations.

Summary of Proposed Change

The proposed change described below amends Delaware’s Temporary Assistance for Needy Families (TANF) Employment and Training (E & T) Program policies in the Division of Social Services Manual (DSSM) regarding Mandatory Participants. This change clarifies the rules for parents accessing the right to be exempted from TANF E & T requirements when the parent is caring for their child who is less than 12 months old and the parent is a single custodian parent. The Code of Federal Regulations (CFR) at 45 CFR §261.2(n)(2)(i) gives States the option to exempt parents caring for a child under 12 months of age for up to 12 months in the lifetime of the parent. The policy change eliminates the opportunity for parents with this exemption to volunteer to participate in E&T but maintains access to the E&T programs through mandatory participation.

Statutory Authority

45 CFR §261.2(n)(2)(i), What definitions apply to this part?
45 CFR §§261.22(c)(1) and (c)(2), How will we determine a State’s overall work rate?

Summary of Proposed Change

Effective February 1, 2010, single custodian parents caring for a child under 12 months of age will be exempted from employment and training for up to a lifetime limit of 12 months. Single custodian caretakers are automatically granted an exemption from employment and training if months within their lifetime limit are available. This rule change allows a parent to request not to be exempted and to be mandatory for employment and training activities. Once a parent is mandatory she or he may not return to exempted status. A parent who is mandatory for employment and training will become exempted from E&T activities if a new biological/step/or adoptive child under 12 months of age enters the home.

The proposed changes affect the following policy sections:

DSSM 3006.1, Mandatory Participants
DSSM 3006.2, TANF Employment and Training Participation and Participation Rates
DSSM 300 6.2.1, TANF Employment and Training Participants Who Count for TANF Participation According to the Provisions of Delaware’s Temporary Assistance for Needy Families.
The Governor’s Advisory Council for Exceptional Citizens (GACEC) and the State Council for Persons with Disabilities (SCPD) offered the following observations and recommendations summarized below. DSS has considered each comment and responds as follows:

As background, under the TANF program, most participants are required to engage in employment or training activities. By federal regulation, states are given the option of exempting parents of children under 12 months of age. The current DSS regulation [16 DE Admin Code 3006.1A] establishes such an exemption. DSS proposes to amend the regulation to explicitly authorize parents of children under 12 months of age to waive the exemption. GACEC and SCPD have the following observations.

First, DSS may wish to check the reference to 45 C.F.R. §261.2(n)(2)(i) at the beginning of Section 3006.1. Consistent with the attachments, the correct reference may be 45 C.F.R. §261.22(c)).

Second, the Councils have previously promoted offering E&T-exempt participants the option of participating in the program on a voluntary basis. See discussion at 12 DE Reg. 793, 794 (December 1, 2008). The last two sentences in existing Section 3006.1 already recite that exempt individuals can volunteer to participate in the E&T program. The proposed amendments to §3006.1A provide some specific standards to implement this option in the context of parents of children under 12 months of age. The standards are prescriptive and require participants to meet E&T standards within 14 calendar days of waiving the exemption or face sanctions. The “Summary of Proposed Change” section also notes that participants cannot “opt in and out”: “Once a parent is mandatory, she or he may not return to exempted status.” We recommend that DSS reconsider this approach in favor of allowing withdrawal of a waiver for good cause. Changed circumstances may affect a new parent’s ability to care for a baby and participate in E&T activities. For example, relatives who agreed to provide free childcare may change their mind. The baby may develop a chronic illness or frequent sicknesses prompting the need for unanticipated parental involvement.

Agency Response: In regards to your recommendations regarding proposed regulations, as suggested the reference in the existing policy 3006.1 will be updated to reference the work-eligible definition at 45 CFR §261.2(n) and the States’ option to not mandate participation of a single parent caring for a child less than 12 months olds at 45 CFR §261.22(c)). Additionally, your agency recommended that DSS allow parents the opportunity to become exempt from work requirements following the waiver of their exemption if good cause exists. The TANF program currently considers the circumstances described in your letter for all mandatory employment and training participants. In the case of extended illness of a child, parents may be exempted from employment training if they provide verification from a healthcare provider that they are needed in the home to care for a child. Additionally, every TANF recipient may receive up to 2 absent days a month to accommodate short term crisis situations. Finally, in addition to state funded childcare services, TANF recipients can arrange to complete some job readiness assignments at home if a short term circumstance arises that prevents the participant from attending the program. Given these safeguards it is the Division’s belief that the supports needed to address short term crises are currently available to all recipients.

FINDINGS OF FACT:

The Department finds that the proposed changes as set forth in the December 2010 Register of Regulations should be adopted.

THEREFORE, IT IS ORDERED, that the proposed regulation to amend the Delaware TANF Employment and Training Program policies regarding Mandatory Participants is adopted and shall be final effective February 10, 2011.

Rita M. Landgraf, Secretary, DHSS
3006.1 Mandatory Participants

[(45 CFR §261.2 (n)(2)(i)) 45 CFR §261.22(c)]

All adult caretakers and other adults in the assistance unit who are not exempt must participate in Employment and Training related activities. The four possible exemptions are:

A. A single custodial parent caring for a child under 12 months of age. This exemption has a lifetime limit of 12 months.

B. A single custodial parent caring for a child less than 12 months of age may be exempted from employment and training activities for up to 12 months in the lifetime of the parent.

Single custodial parents who are caring for a child less than 12 months of age and who have not reached their 12 month limit will be exempted from employment and training activities unless they waive their employment and training exemption.

Parents who waive their employment and training exemption are subject to all the conditions and rules of the employment and training program. Parents who waive their employment and training exemption cannot be exempted for caring for a child less than 12 months of age again unless a new biological, step, or adopted child less than 12 months of age is added to the TANF case.

B. An individual determined unemployable by a health care professional.

C. On a case-by-case basis, clients who are victims of Domestic Violence. (see DSSM 3010.2.1 through DSSM 3010.2.5)

D. A parent caring for a disabled family member* who lives in the home.

* A parent or spouse can be excluded to care for a child or a spouse as long as the following conditions apply:
   1. The parent is biological, adoptive or step.
   2. The parent or spouse lives in the home with the child.
   3. The need for such care is supported by medical documentation.
   4. The spouse of a parent can use the caring for exemption even though the marriage is terminated by death or divorce.

Children age 16 or older who are not attending school must participate in work or other alternative activities, e.g., GED.

Individuals who are exempt from Employment and Training requirements can volunteer to participate in the Employment and Training Program. Individuals with disabilities will be afforded the same access, supports and opportunities, including reasonable accommodations, to participate in the Employment and Training programs.

3006.2 TANF Employment and Training Participation and Participation Rates

Under the Temporary Assistance for Needy Families Block Grant, DSS is required to meet the following work participation rates with respect to all families that include an adult or minor child head of household receiving assistance:

<table>
<thead>
<tr>
<th>Fiscal Year</th>
<th>Minimum Participation Rate</th>
<th>Required weekly hours of participation</th>
</tr>
</thead>
<tbody>
<tr>
<td>2002 and after</td>
<td>50%</td>
<td>30 hours</td>
</tr>
</tbody>
</table>

TWO PARENT FAMILIES
DSS may face a lower work participation rate if it experiences a net caseload reduction compared to FY 2005.

Example: If it is determined that DSS’ average monthly caseload in FY 2006 was 4 percentage points lower than average monthly caseloads in FY 2005, then, rather than having to meet a 50% work participation rate requirement in FY 2006, the rate would be lowered by 4 percentage points to 46%.

To be counted toward meeting the work participation rate, each individual must meet the required number of hours each week.

Single parents who are not working 30 hours a week or making earning the equivalent of 30 hours a week times minimum wage are required to participate in work and/or work related activities. Participation in work and work related activities must equal at least a minimum average of 30 hours a week; and, at least 20 of the hours per week must come from participation in federally defined core activities.

Single parent/caretaker TANF recipients with a child in the TANF household under six are deemed to be engaged in work for a month if the recipient is engaged in federally defined core work activities for an average of at least 20 hours per week during the month.

Two-parent families where one parent is not working at least 35 hours a week or making earning the equivalent of 35 hours a week times minimum wage are required to participate in work and/or work related activities. Participation in work and work related activities must equal an average of at least 35 hours a week; and, at least 30 of the hours per week must come from participation in federally defined core activities.

Two-parent families who receive federally funded Purchase of Care services who are not working at least 55 hours a week or making earning the equivalent of 55 hours times minimum wage are required to participate in work and/or work related activities. Participation in work and work related activities for one parent must equal 35 hours a week. Combined hours of participation in work and work related activities must equal an average of at least 55 hours a week. Of the average 55 hours a week the participants must average at least 50 hours a week of federally defined core activities.

Teen parents are required to attend school, work, or participate in the employment and training activities. Secondary, post-secondary, vocational, training school, and participation in a GED program meets participation requirements for the month and is the equivalent to work. If they are not attending one of the above types of school or working for 30 hours a week they must participate in employment and training activities for 20 or 30 hours a week.

Single custodial parents with a child under 12 months of age are able to receive an exemption from Employment and Training requirements for a total of 12 months in their lifetime. These 12 months can be used anytime the parent has a child less than 12 months of age. Once the youngest child reaches 12 months of age, the parents are required to participate in Employment and Training. If they are already working the equivalent of their required Employment and Training hours (20, 30, 35, 55), the DCIS II system will code them as volunteers for Employment and Training.

The monthly participation rate is calculated as follows:

\[
\text{Numerator: } \# \text{ of TANF families with a work-eligible-individual who meet the participation requirement for the month} \\
\text{divided by} \\
\text{Denominator: } \# \text{ of TANF families that include a work-eligible individual, less } \# \text{ of families sanctioned in that month for failure to participate in work (for up to 3 months in preceding 12 month period), less the number of non-needy caretaker households, less the number of single custodial parents opting to use one of the 12 months allowable exemptions for caring for a child under one year of age. A parent can only use this exemption for a total of 12 months in their lifetime.}

### 3006.2.1 TANF Employment and Training Participants Who Count for TANF Participation

According to provisions of Delaware’s Temporary Assistance for Needy Families, the following individuals must participate in work related activities and are included in the denominator for calculating the Federal participation rates:

- Work-eligible individuals as defined in DSS TANF policy;
- Work-eligible adults in the Time-Limited Temporary program;
- Work-eligible adults for whom the Contract of Mutual Responsibility specifies the employment-related activities that will be required;
- Work-eligible adults who are not exempt because they are medically unable to participate; and
- Work-eligible adults who are not exempt because they used their 12 month limit of child care for a child under one year of age.
- Single custodial parents caring for a child less than 12 months of age who have waived their employment and training exemption or are no longer eligible for an exemption.

5105 Regulations Governing the Election of Members of County Board of Conservation District Supervisors
PUBLIC NOTICE

Current regulations contain a discrepancy between voter qualification in Kent and New Castle Counties as compared to voter qualification in Sussex County. In Kent and New Castle Counties, qualified voters must hold title to land in the Specified Board Supervisor area. In Sussex County, qualified voters must hold title to land in Sussex County. This modification would change voter eligibility standards in Sussex County to mirror those in Kent and New Castle Counties.

This modification was requested by the Sussex Conservation District Board of Supervisors and the Delaware Association of Conservation District in an effort to keep Title 7, Chapter 39, consistent and uniform throughout each of Delaware’s three Conservation Districts.

Individuals may present their comments or request additional information by contacting Robert Palmer of the District Operations Section, Division of Watershed Stewardship, 89 Kings Highway, Dover, DE 19901, (302) 739-9921. A public hearing on these proposed amendments will be held on February 24, 2011 at 7:00 P.M. in the DNREC Auditorium, 89 Kings Highway, Dover, DE 19901. DIVISION OF PROFESSIONAL REGULATION
4400 Delaware Manufactured Home Installation Board
PUBLIC NOTICE

Pursuant to 24 Del.C. §4416(b)(1), the Manufactured Home Installation Board has proposed revisions to its rules and regulations.

A public hearing on proposed revisions published on November 1, 2010 in the Register of Regulations, Volume 14, Issue 5 was held on November 22, 2010. The Manufactured Home Installation Board decided to make further revisions to the rules and regulations.

A public hearing to address these proposed revisions will be held on March 14, 2011 at 9:15 a.m. in the second floor conference room B of the Cannon Building, 861 Silver Lake Boulevard, Dover, Delaware, where members of the public can offer comments. Anyone wishing to receive a copy of the proposed rules and regulations may obtain a copy from the Manufactured Home Installation Board, 861 Silver Lake Blvd, Cannon Building, Suite 203, Dover, DE 19904. Persons wishing to submit written comments may forward these to the Board at the above address. The final date to receive written comments will be at the public hearing.

The Board has proposed revisions to Rule 9.0. The Board’s licensing law, Chapter 44 of Title 24 of the Delaware Code, provides that all manufactured home installations must be performed, at minimum, in compliance with the requirements of the United States Department of Housing and Urban Development ("HUD"). See 24 Del.C. §4421. The revisions to Rule 9.0 expressly incorporate HUD’s installation requirements. In particular, the rules reference specific sections of the Code of Federal Regulations. The revisions also specify that, with respect to site suitability (Rule 9.2), site preparation (Rule 9.3) and foundation construction (Rule 9.4), where State, county or municipal standards are more stringent than HUD requirements, the installer shall comply with the more stringent standards.

These amendments will make explicit what is already included in the Board’s licensing law and will, therefore, provide greater clarity and greater protection for the public.

The Board will consider promulgating the proposed rules and regulations at its regularly scheduled meeting following the public hearing.
