923 Children with Disabilities Subpart B General Duties and Eligibility of Agencies

Education Impact Analysis Pursuant To 14 Del.C. Section 122(D)

A. Type Of Regulatory Action Required

Amendment to Existing Regulation

B. Synopsis Of Subject Matter Of The Regulation

The Secretary of Education seeks the consent of the State Board of Education to amend 14 **DE Admin. Code** 923, Children With Disabilities, Subpart B, General Duties and Eligibility of Agencies.

Regulations 922 through 929 address the special education needs of children with disabilities, and implement 14 **Del.C.** Ch. 31 and Part B of the Individuals With Disabilities Education Act, 20 U.S.C. 1400 et seq. ("IDEA"). The Department of Education adopted Regulation 923 as part of a comprehensive review of Delaware's special education regulations, undertaken in response to changes in federal special education regulations in August 2006 implementing the IDEA.

The proposed revisions to 14 **DE Admin. Code** 923 are designed to continue the alignment of state and federal regulations addressing the education of children with disabilities and their families, and to establish the conditions under which school districts, charter schools, and other educational agencies may receive funding for the education of children with disabilities. 14 **DE Admin. Code** 923 is also being revised to correct errata and some minor typographical errors. The proposed amendments further clarify provisions related to child find duties of school districts and local education agencies and procedural safeguards.

Please note the IDEA specifically requires the Department of Education notify school districts and other education agencies of any State requirements for the education of children with disabilities that exceed federal requirements. Regulation 923 identifies those additional State requirements by italicizing them in the text of the regulations.

Persons wishing to present their views regarding the proposed amendments may do so in writing by the close of business on or before March 4, 2011 to Martha Toomey, Director, Exceptional Children Resources, Department of Education, at 401 Federal Street, Suite 2, Dover, DE 19901. A copy of this regulation is available from the above address or may be viewed at the Department of Education business office. The proposed regulation is also available by contacting Jennifer Kline, Esq., Education Associate, at the above address, or by email at: jkline@doe.k12.de.us.

C. Impact Criteria

1. Will the amended regulation help improve student achievement as measured against state achievement standards? The proposed amendments address the achievement of children with disabilities, including their achievement measured against state standards.

2. Will the amended regulation help ensure that all students receive an equitable education? The proposed amendments help assure children with disabilities receive equitable educational services.

3. Will the amended regulation help to ensure that all students' health and safety are adequately protected? The proposed amendments do not directly address health and safety issues, but those issues are addressed by regulations already in place.

4. Will the amended regulation help to ensure that all students' legal rights are respected? The proposed amendments specifically ensure and implement the rights of children with disabilities under the IDEA and the provisions of Chapter 31 of Title 14 of the Delaware Code.

5. Will the amended regulation preserve the necessary authority and flexibility of decision making at the local board and school level? The proposed amendments leave decisions about the provision of special education services to the child's local planning team.

6. Will the amended regulation place unnecessary reporting or administrative requirements or mandates upon decision makers at the local board and school levels? The proposed amendments do not require any more reporting than necessary to comply with State statutory and federal requirements addressing the education of children with disabilities.

7. Will the decision making authority and accountability for addressing the subject to be regulated be placed in the same entity? The State and school districts and local educational agencies share authority and accountability for the

education of children with disabilities, and the proposed amendments reflect that partnership.

8. Will the amended regulation be consistent with and not an impediment to the implementation of other state educational policies, in particular to state educational policies addressing achievement in the core academic subjects of mathematics, science, language arts and social studies? The proposed amendments clarify the State's alignment with the requirements of the IDEA.

9. Is there a less burdensome method for addressing the purpose of the regulation? The proposed amendments are designed to assure compliance with applicable laws regarding the education of children with disabilities in the most efficient and effective way for the Department, the school districts, and other affected State and local agencies.

10. What is the cost to the State and to the local school boards of compliance with the regulation? Compliance with the IDEA is required as a condition of federal funding.

923 Children with Disabilities Subpart B General Duties and Eligibility of Agencies

Non-regulatory note: Some sections of this regulation are shown in *italics*. Federal law requires that the Delaware Department of Education identify in writing any Delaware rule, regulation or policy that is a state-imposed requirement rather than a federal requirement (see 20 USC §14079a(2)). The *italicized portions* of this regulation are Delaware-imposed requirements for the education of children with disabilities and are not specifically required by federal special education law and regulations.

1.0 Eligibility for Assistance and Free Appropriate Public Education (FAPE) Requirements

1.1 Eligibility for assistance: To maintain eligibility for assistance under Part B of the Act, the DOE shall submit a plan that provides assurances to the Secretary of the U.S. Department of Education that the State has in effect policies and procedures to ensure that the State meets the conditions in 1.2 through 75.0.

(Authority: 20 U.S.C. 1412(a); 14 **Del.C.** §3110)

1.2 Free appropriate public education: A free appropriate public education (FAPE) shall be available to all children with disabilities residing in Delaware between the ages of 3 and 20, inclusive, including children with disabilities who have been suspended or expelled from school, as provided for in 14 **DE Admin. Code** 926.30.4.

1.2.1 Each public agency receiving funds under part of the Act, or receiving state funding for the education of children, shall ensure that FAPE is made available to each eligible child beginning no later than the child's third (3rd) birthday; and that an IEP is in effect for the child by that date, in accordance with 14 **DE Admin. Code** 925.23.1.

1.2.2 If a child's third (3rd) birthday occurs during the summer, the child's IEP Team shall determine the date when services under the IEP will begin.

1.2.3 Children advancing from grade to grade: Each public agency shall ensure that FAPE is available to any individual child with a disability who needs special education and related services, even though the child has not failed or been retained in a course or grade, and is advancing from grade to grade.

1.2.4 The determination that a child described in 1.1 is eligible under these regulations, shall be made on an individual basis by the group responsible within the child's LEA for making eligibility determinations.

(Authority: 20 U.S.C. 1412(a)(1)(A); 14 **Del.C.** §3110)

2.0 Limitation Exception to FAPE for Certain Ages

2.1 General: The obligation to make FAPE available to all children with disabilities does not apply with respect to the following:

2.1.1 Reserved

2.1.2 Reserved

2.1.3 Children with disabilities who have graduated from high school with a regular high school diploma.

- 2.1.3.1 The exception in 2.1.3 does not apply to children who have graduated from high school but have not been awarded a regular high school diploma.
 - 2.1.3.2 Graduation from high school with a regular high school diploma constitutes a change in placement, requiring written prior notice in accordance with 14 **DE Admin. Code** 926.3.0.
 - 2.1.3.3 As used in 2.1.3, 2.1.3.1 and 2.1.3.2, the term regular high school diploma does not include an alternative degree that is not fully aligned with the State's academic standards, such as a certificate or a general educational development credential (GED).
 - 2.1.4 Children with disabilities who are eligible under 34 CFR §§300.800 through 300.818 (preschool grants), but who receive early intervention services under Part C of the Act.
- ~~2.1.5~~ 2.2 Documents relating to exceptions. The State shall assure that the information it has provided to the Secretary of the United States Department of Education regarding the exceptions in this section, as required by 34 CFR §300.700 (for purposes of making grants to States under these regulations), is current and accurate.
- (Authority: 20 U.S.C. 1412(a)(1)(B)-(C); 14 **Del.C.** §3110)

3.0 FAPE, Methods and Payments

- 3.1 The State may use whatever State, local, Federal, and private sources of support are available to it to meet the requirements of these regulations. For example, if it is necessary to place a child with a disability in a residential facility, the State may use joint agreements between the agencies involved for sharing the cost of that placement.
 - 3.2 Nothing in these regulations relieves an insurer or similar third party from an otherwise valid obligation to provide or to pay for services provided to a child with a disability.
 - 3.3 Consistent with 14 **DE Admin. Code** 925.23.2, each public agency shall ensure that there is no delay in implementing a child's IEP, including any case in which the payment source for providing or paying for special education and related services to the child is being determined.
- (Authority: 20 U.S.C. 1401(8), 1412(a)(1); 14 **Del.C.** §3110).

4.0 Residential Placement

- 4.1 If placement in a public or private residential program is necessary to provide special education and related services to a child with a disability, the program, including non-medical care and room and board, shall be at no cost to the parents of the child.
- (Authority: 20 U.S.C. 1412(a)(1), 1412(a)(10)(B); 14 **Del.C.** §3110)

5.0 Assistive Technology

- 5.1 Each public agency shall ensure that assistive technology devices or assistive technology services, or both, as those terms are defined in 14 **DE Admin. Code** 922.3.0, are made available to a child with a disability if required as a part of the child's special education, related services, or supplementary aids and services.
 - 5.1.1 On a case by case basis, the use of school purchased assistive technology devices in a child's home or in other settings is required if the child's IEP Team determines that the child needs access to those devices in order to receive FAPE.
- (Authority: 20 U.S.C. 1412(a)(1), 1412(a)(12)(B)(i); 14 **Del.C.** §3110)

6.0 Extended School Year Services

- 6.1 General: Each public agency shall ensure that extended school year services are available as necessary to provide FAPE, consistent with 6.2.
- 6.2 Extended school year services shall be provided only if a child's IEP Team determines, on an individual basis, in accordance with 14 **DE Admin. Code** 925.20.0 through 925.24.0, that the services are necessary for the provision of FAPE to the child.

- 6.3 In implementing the requirements of this section, a public agency may not limit extended school year services to particular categories of disability; or unilaterally limit the type, amount, or duration of those services.
- 6.4 Definition, as used in this section:
“Extended School Year Services” means special education and related services that are provided to a child with a disability beyond the normal school year of the public agency in accordance with the child's IEP and at no cost to the parents of the child; and meets the standards of the DOE.
- 6.5 *Determining need for Extended School Year Services: Full consideration must be given to the educational needs of each child. The following factors are to be considered by the IEP team in making a decision that, without extended school year services over the summer months, the child would not receive a free appropriate public education during the regular school year.*
- 6.5.1 *Degree of Impairment: The team should determine whether, without extended school year services, appropriate and meaningful progress on IEP goals and objectives will not be achieved, given the nature or severity of the child's disability.*
- 6.5.2 *Regression and recoupment: Regression refers to a decline in skills specified on the IEP which results from an interruption in programming. Recoupment period is the amount of time required to relearn the skills following the interruption. In making a determination as to whether extended school year services are required, the team should consider that this criterion focuses on children who have a consistent pattern of substantial regression in critical skill areas and for whom the amount of time needed to relearn the skills becomes so significant as to preclude educational progress. The team may utilize predictive data for children in their initial year of programming.*
- 6.5.3 *Breakthrough opportunities: The team should determine whether, without extended school year services, the attainment of a nearly acquired critical skill would be significantly jeopardized over the summer break*
- 6.5.4 *Vocational: For children ages 16-20 whose IEPs contain vocational or employment goals and objectives, the team should determine whether paid employment opportunities will be significantly jeopardized if training and job coaching are not provided during the summer break.*
- 6.5.5 *Other rare and unusual extenuating circumstances: The team should determine whether any special or extenuating circumstances exist which justify provision of extended school year services to meet FAPE requirements.*
- 6.6 *Extended school year services are to be based on needs and goals or objectives found within the child's IEP of the school year, though activities may be different.*
- 6.7 *This regulation does not diminish a child's entitlement to participate, with or without accommodations, in summer school programs. Normally scheduled summer school programs may be an option for providing extended school year services if such programs can meet the individual needs of each child, as identified on the child's IEP.*
- 6.8 *The decision of the setting for the delivery of extended school year services shall be an IEP team decision. The team shall document that the Least Restrictive Environment (LRE) was considered in making a decision. Districts are not required to establish school programs for non-disabled children for the sole purpose of satisfying the LRE requirements for children receiving extended school year services.*
- 6.9 *Transportation shall be provided to children except for service provided in the home or hospital. Mileage reimbursement to the family may be used as a transportation option if the parent voluntarily transports the student.*
- 6.10 *Written notice shall be provided to parents advising them that the IEP team shall document that extended school year services were considered, and indicate the basis for a decision on the IEP. In cases where parents do not attend the IEP meeting, they would be advised of the decision on extended school year services through the usual IEP follow-up procedures used by the district.*
- 6.11 *In cases where parents do not agree with the decision on extended school year services, the use of normal procedural safeguards shall be followed. The process shall begin early enough to ensure settlement of the issue prior to the end of the school year.*

Non-regulatory Note: Districts are encouraged to complete this process by May 1 so that appropriate planning and preparation can occur.

7.0 Non Academic Services; Transportation

- 7.1 Each public agency shall take steps, including the provision of supplementary aids and services determined appropriate and necessary by the child's IEP Team, to provide nonacademic and extracurricular services and activities in the manner necessary to afford children with disabilities an equal opportunity for participation in those services and activities.
 - 7.2 Nonacademic and extracurricular services and activities may include counseling services, athletics, transportation, health services, recreational activities, special interest groups or clubs sponsored by the public agency, referrals to agencies that provide assistance to individuals with disabilities, and employment of students, including both employment by the public agency and assistance in making outside employment available.
 - 7.3 *Transportation: Transportation of all children to and from school shall be provided in accordance with 14 Del.C. Ch. 29.*
 - 7.3.1 *When special transportation needs are identified in the IEP of a child with a disability, transportation shall be deemed a related service. Transportation provided to accommodate a related service shall be at the expense of the LEA or other public agency, including, but not limited to, the costs of travel to and from school and between schools, and any required specialized equipment.*
 - 7.3.2 *Transportation incidental to the educational program of a child with a disability shall not be at the expense of the public agency, including, but not limited to work study arrangements, cooperative work arrangements, and extracurricular activities.*
 - 7.3.3 *Travel arrangements shall be made in consultation with the public agency's transportation representative when unusual requirements are necessary for a child with a disability.*
- (Authority: 20 U.S.C. 1412(a)(1); 14 Del.C. §3110)

8.0 Physical Education

Each public agency shall comply with the following:

 - 8.2 Regular physical education: Each child with a disability shall be afforded the opportunity to participate in the regular physical education program available to non disabled children unless:
 - 8.2.1 The child is enrolled full time in a separate facility; or the child needs specially designed physical education, as prescribed in the child's IEP.
 - 8.3 Special physical education: If specially designed physical education is prescribed in the child's IEP, the public agency responsible for the education of that child shall provide the services directly or make arrangements for those services to be provided through other public or private programs.
 - 8.4 Education in separate facilities. The public agency responsible for the education of a child with a disability who is enrolled in a separate facility shall ensure that the child receives appropriate physical education services in compliance with this section.
- (Authority: 20 U.S.C. 1412(a)(5)(A); 14 Del.C. §3110)

9.0 Full Educational Opportunity; Length of School Day; Compulsory School Attendance

- 9.1 *Full educational opportunity: Each public agency shall ensure full educational opportunity is offered to its eligible children with disabilities.*

- 9.2 *Length of school day: The minimum length of the instructional school day for a child with a disability in Kindergarten through grade twelve (12) shall be the same as it is for non-disabled children in those grades. The minimum length of the school day for disabled pre kindergarten children shall approximate that of non-disabled pre-Kindergarten children, except in a program for the hearing impaired in which the parent is involved in the educational program. In such a program, the school and the parent together shall determine the schedule for at least 5 hours per week of instruction.*
- 9.2.1 *Provision of fewer hours of instructional time than required by these regulations is authorized only in unusual circumstances where a child is medically unable to endure the required length of school day, and then only by decision of the IEP team after disclosure of the above standards to the child's parents, guardian, and/or Relative Caregiver.*
- 9.3 *Compulsory school attendance: Compulsory school attendance requirements shall be in accordance with 14 Del.C. §2702 and §705, and shall apply to children with disabilities between the ages of five (5) and sixteen (16). Attendance of children with disabilities under or over the compulsory school attendance age range, as provided in 14 Del.C. §2702, shall be determined by the IEP team and subject to the eligibility criteria and procedural safeguards provided in these regulations.*
(Authority: 20 U.S.C. 1412(a)(2); 14 Del.C. §3110)

- 10.2 *Vocational Education and Career Technical Programs and Services: Vocational and career technical programs and services shall be provided to children with disabilities as determined appropriate by each child's IEP team. Each public agency shall ensure the provision of a vocational and career technical program in the least restrictive environment permitting children with disabilities equal access to:*
- 10.2.1 *Recruitment, enrollment and placement activities and the full range of vocational programs available to all students including occupational specific courses of study, cooperative education, apprenticeship programs and to the extent practicable, comprehensive career guidance and counseling services.*

11.0 Child Find and Identification of Eligible Individuals

- 11.1 General: As used in these regulations, identification has two (2) purposes: to identify those individuals who require special education; and to identify individuals who need general education interventions. Except as noted in 11.1.1 regarding parentally placed private school children, Each LEA and any other public agency responsible for the education of children with disabilities shall establish and implement ongoing evaluation procedures consistent with this section to identify, locate and evaluate all children residing within the confines of the LEA or other public agency, including children with disabilities who are homeless children or are wards of the State, and children with disabilities attending private schools, regardless of the severity of their disability, and who are in need of special education and related services.
- 11.1.1 Each LEA or other public agency shall further establish and implement ongoing evaluation procedures consistent with this section to identify, locate and evaluate children with disabilities who are enrolled by their parents in private, including religious, elementary schools and secondary schools located within the school district served by the LEA in accordance with this section and 31.0 (Child Find for Parentally Placed Private School Children with Disabilities).
- 11.2 Children with developmental delay: The following provisions apply with respect to implementing the child find requirements of this section:
- 11.3 The definition of developmental delay adopted by the State under 14 **DE Admin. Code** 925.6.7 applies to children aged three (3) through nine (9).
- 11.4 An LEA is not required to adopt and use the term developmental delay for children within its boundaries.
- 11.5 If an LEA uses the term developmental delay for children, the LEA shall conform to both the State's definition of that term and to the age range that has been adopted by the State (i.e., ages three (3) through nine (9)).
- 11.6 Other children in child find: Child find also shall include children who are suspected of being a child with a disability as defined in 14 **DE Admin. Code** 922.3.0 and in need of special education, even though they are advancing from grade to grade; and highly mobile children, including migrant children.

Code** 922.3.0 (in the definition of child with a disability) and who, by reason of that disability, needs special education and related services is regarded as a child with a disability under Part B of the Act.
- 11.9 Problem Solving in General Education and Instructional Support Teams
- 11.9.1 Problem solving in general education classroom and instructional support teams: *The identification and child find procedures required in 11.0, shall include a systematic problem solving process to examine the nature and severity of an educationally related problem. These procedures shall primarily focus on variables related to developing effective educationally related interventions. Active parent participation is an integral aspect of the process and is solicited throughout. At a minimum, the process shall include:*
- 11.9.1.1 *Description of problem: The presenting problem or behavioral concern is described in objective, measurable terms that focus on alterable characteristics of the individual and the environment. The individual and environment are examined through systematic data collection. The presenting problem or behavioral concern are defined in a problem statement that describes the differences between the demands of the educational setting and the individual's performance.*
- 11.9.1.2 *Data collection and problem analysis: A systematic, data-based process for examining all that is known about the presenting problem or behaviors of concern is used to identify*

interventions that have a high likelihood of success. Data collected on the presenting problem or behaviors of concern are used to plan and monitor interventions. Data collected are relevant to the presenting problem or behaviors of concern and are collected in multiple settings using multiple sources of information and multiple data collection methods. Data collection procedures are individually tailored, valid for the concern addressed, and reliable, and allow for frequent and repeated measurement of intervention effectiveness.

- 11.9.1.3 *Intervention design and implementation: Interventions are designed based on the preceding analysis, the defined problem, parent input, and professional judgments about the potential effectiveness of interventions. The interventions are described in an intervention plan that includes goals and strategies, a progress monitoring plan, a decision making plan for summarizing and analyzing progress monitoring data, and responsible parties. Interventions are implemented as developed and modified on the basis of objective data and with the agreement of the responsible parties.*

- 11.9.1.5 *Evaluation of intervention effects: The effectiveness of interventions is evaluated through a systematic procedure in which patterns of individual performance are analyzed and summarized. Decisions regarding the effectiveness of interventions focus on comparisons with initial levels of performance and rate of progress toward meeting grade level expectations.*
- 11.9.2 *The identification and child find procedures required in 11.0, shall also include procedures to establish, and to refer students to, school or program based instructional support teams. The agency's procedures shall include the following requirements:*

It shall include consideration, as appropriate, of curriculum based assessment measures, analyses of instructional variables, systematic observations, functional assessments and current health information.*
 - 11.9.2.3 *Baseline and progress monitoring data shall be collected and used to inform intervention strategies.*
 - 11.9.2.4 *All initial referrals to the instructional support team shall be in writing. Written documentation of the instructional support team process shall be maintained for each student.*
 - 11.9.2.5 *The instructional support team process may or may not lead to referral for initial evaluation to determine eligibility for special education services.*
 - 11.9.2.5.1 *When the instructional support team determines the student should be evaluated to determine eligibility for special education services, the team shall forward a written recommendation to an appropriate, designated staff member within ten (10) school days.*
 - 11.9.2.5.2 *Within ten (10) school days of the recommendation, the student's parents shall be notified in writing of the team's recommendation that the student be evaluated for special education services. The notification shall include a request for parental consent for initial evaluation.*
 - 11.9.2.5.3 *Referrals for an individual student that do not contain all required information and documentation, including the data and other evidence described in 11.9.2.2 and 11.9.2.3, may be returned to the instructional support team with a request that they be*

supplemented. Parental notification of the team's recommendation, and the request for consent for initial evaluation, shall still occur within ten (10) school days of the initial team recommendation.

54.0 Methods of Ensuring Services

- 54.1 Establishing responsibility for services: The Secretary shall ensure that an interagency agreement or other mechanism for interagency coordination is in effect between each non educational public agency described in 54.2 and the DOE, in order to ensure that all services described in 54.2 that are needed to ensure FAPE are provided, including the provision of these services during the pendency of any dispute in 54.1.3. The agreement or mechanism shall include the following:
 - 54.1.1 An identification of, or a method for defining, the financial responsibility of each agency for providing services described in 54.2 to ensure FAPE to children with disabilities. The financial responsibility of each non educational public agency, including the State Medicaid agency and other public insurers of children with disabilities, shall precede the financial responsibility of the LEA (or the State agency responsible for developing the child's IEP).
 - 54.1.2 The conditions, terms, and procedures under which an LEA shall be reimbursed by other agencies.
 - 54.1.3 Procedures for resolving interagency disputes (including procedures under which LEAs may initiate proceedings) under the agreement or other mechanism to secure reimbursement from other agencies or otherwise implement the provisions of the agreement or mechanism.
 - 54.1.4 Policies and procedures for agencies to determine and identify the interagency coordination responsibilities of each agency to promote the coordination and timely and appropriate delivery of services described in 54.2.
- 54.2 Obligation of non educational public agencies: If any public agency other than an educational agency is otherwise obligated under Federal or State law, or assigned responsibility under State policy or pursuant to 54.1, to provide or pay for any services that are also considered special education or related services (such as, but not limited to, services relating to assistive technology devices, assistive technology services, related services, supplementary aids and services, and transition services) that are necessary for ensuring FAPE to children with disabilities within the State, the public agency shall fulfill that obligation or responsibility, either directly or through contract or other arrangement pursuant to 54.1 or an agreement pursuant to 54.4.
 - 54.2.1 A non educational public agency described in 54.2 may not disqualify an eligible service for Medicaid reimbursement because that service is provided in a school context.

- 54.3 If a public agency other than an educational agency fails to provide or pay for the special education and related services described in 54.2, the LEA (or State agency responsible for developing the child's IEP) shall provide or pay for these services to the child in a timely manner. The LEA or State agency is authorized to claim reimbursement for the services from the non educational public agency that failed to provide or pay for these services and that agency shall reimburse the LEA or State agency in accordance with the terms of the interagency agreement or other mechanism described in 54.1.
- 54.4 Special rule: The requirements of 54.1 may be met through State statute or regulation; signed agreements between respective agency officials that clearly identify the responsibilities of each agency relating to the provision of services; or other appropriate written methods as determined by the Secretary and approved by the Secretary of the United States Department of Education.
- 54.5 Children with disabilities who are covered by public benefits or insurance: A public agency may use the Medicaid or other public benefits or insurance programs in which a child participates to provide or pay for services required under these regulations, as permitted under the public benefits or insurance program, except as further provided in this section. With regard to services required to provide FAPE to an eligible child under these regulations, the public agency:

 - 54.5.2 May not require parents to incur an out of pocket expense such as the payment of a deductible or co pay amount incurred in filing a claim for services provided pursuant to these regulations, but pursuant to 54.7, may pay the cost that the parents otherwise would be required to pay;
 - 54.5.3 May not use a child's benefits under a public benefits or insurance program if that use would:
 - 54.5.3.1 Decrease available lifetime coverage or any other insured benefit;
 - 54.5.3.2 Result in the family paying for services that would otherwise be covered by the public benefits or insurance program and that are required for the child outside of the time the child is in school;
 - 54.5.3.3 Increase premiums or lead to the discontinuation of benefits or insurance; or
 - 54.5.3.4 Risk loss of eligibility for home and community based waivers, based on aggregate health related expenditures; and
 - 54.5.3.5 Shall obtain parental consent each time that access to public benefits or insurance is sought; and notify parents that the parents' refusal to allow access to their public benefits or insurance does not relieve the public agency of its responsibility to ensure that all required services are provided at no cost to the parents.
 - 54.5.4 Children with disabilities who are covered by private insurance: With regard to services required to provide FAPE to an eligible child under these regulations, a public agency may access the parents' private insurance proceeds only if the parents provide consent.
 - 54.5.5 Each time the public agency proposes to access the parents' private insurance proceeds, the agency shall obtain parental consent in accordance with 54.5.4; and inform the parents that their refusal to permit the public agency to access their private insurance does not relieve the public agency of its responsibility to ensure that all required services are provided at no cost to the parents.
- 54.6 Use of Part B funds: If a public agency is unable to obtain parental consent to use the parents' private insurance, or public benefits or insurance when the parents would incur a cost for a specified service required under these regulations, to ensure FAPE the public agency may use its Part B funds to pay for the service.
- 54.6.1 To avoid financial cost to parents who otherwise would consent to use private insurance, or public benefits or insurance if the parents would incur a cost, the public agency may use its Part B funds to pay the cost that the parents otherwise would have to pay to use the parents' benefits or insurance (e.g., the deductible or co pay amounts).
- 54.7 Proceeds from public benefits or insurance or private insurance: Proceeds from public benefits or insurance or private insurance will not be treated as program income for purposes of 34 CFR 80.25.

54.7.1 If a public agency spends reimbursements from Federal funds (e.g., Medicaid) for services under these regulations, those funds will not be considered "State or local" funds for purposes of the maintenance of effort provisions in 63.0 and 14 **DE Admin. Code** 924.3.0.

54.8 Construction: Nothing in these regulations should be construed to alter the requirements imposed on a State Medicaid agency, or any other agency administering a public benefits or insurance program by Federal statute, regulations or policy under title XIX, or title XXI of the Social Security Act, 42 U.S.C. 1396 through 1396v and 42 U.S.C. 1397aa through 1397jj, or any other public benefits or insurance program.

56.5 Rule of construction: Notwithstanding any other individual right of action that a parent or student may maintain under these regulations, nothing in these regulations shall be construed to create a right of action on behalf of an individual student or a class of students for the failure of a public agency or LEA employee to be highly qualified, or to prevent a parent from filing a complaint about staff qualifications with the DOE as provided for under these regulations.
