#### 4104 Delaware Conrad State 30 / J-1 Visa Waiver Program

### 1.0 Purpose

This document will specify the procedures to be used by the Delaware Health and Social Services (DHSS) in administering the Conrad State 30/J-1 Visa Waiver Program (Program).

### 2.0 Background

International medical graduates (IMG) completing their graduate medical education in the United States under a J-1 Visa are required to return to their country of nationality for at least two years before reentering the United States. Acting as an interested state agency, DHSS may make a recommendation to the U.S. Department of State, Bureau of Consular Affairs Waiver Review Division (DOS) to, in turn, recommend that the U.S. Citizenship and Immigration Services (UCIS) waive the home residence requirement for up to thirty (30) J-1 physicians annually (this includes ~~five~~ 10 J-1 flex waivers ~~to~~ which may be used in areas that are not federally designated as a Health Professional Shortage Area (HPSA)), but nevertheless have been identified by the state as being underserved. In order to receive a letter of support for the J-1 physician applicant from DHSS, ~~however,~~ applications must ~~first~~ meet requirements, described herein.

### 3.0 Policy Statements

- 3.1 DHSS is committed to ensuring that quality health care is available to all residents of the State of Delaware. In an effort to ensure adequate medical services are provided in underserved areas, DHSS has elected to take advantage of the Conrad State 30/J-1 Visa Waiver Program.
- 3.2 Under this program, DHSS has established state-specific procedures that require sponsoring sites to submit a Site Application. This application consists of 1) a needs assessment, 2) proof that the sponsoring site has unsuccessfully attempted over a six month period to hire a physician with United States citizenship, 3) three letters of support from community leaders ~~and/or leaders~~ without financial interest in the practice site who reside in the practice site's service area, 4) strategy for long-term and short-term retention, 5) sponsoring site waiver agreement, 6) non-refundable processing fee of \$200, and 7) a site application form.

- 3.3 The needs assessment must establish and document that a particular need exists within the sponsoring site's service area before the site will be approved to hire a J-1 physician under the Conrad State 30/J-1 Visa Waiver Program. The onus to establish the need rests solely with the sponsoring site.
- 3.4 The Site Application will be reviewed and approved or disapproved by a Board. DHSS will provide written notice to the site of the application's approval/disapproval. A J-1 visa waiver application ~~on behalf of~~ for a particular J-1 physician may not be submitted until the sponsoring site has been approved. J-1 visa waiver applications will only be accepted from J-1 physicians who have signed a contract with a *pre-approved* site.
- 3.5 DHSS will submit recommendations to the DOS on behalf of qualified J-1 physician applicants who agree to practice medicine full-time at a pre-approved sponsoring site for a minimum of three years in a federally designated Health Professional Shortage Area (HPSA) or a Medically Underserved Area (MUA) of Delaware, or other underserved area using a flex slot, with a *pre-approved* site.
- 3.6 DHSS participation in the Conrad State 30/J-1 Visa Waiver Program is completely discretionary and voluntary. DHSS may elect not to participate in the Program at any time. The submission of a complete waiver package does not ensure DHSS will recommend a waiver ~~in all instances~~. No more than 30 applications will be approved each fiscal year. DHSS reserves the right to recommend or decline any request for a waiver.
- 3.7 ~~The Bureau of Health Planning and Resources Management within the~~ Delaware Division of Public Health shall charge a non-refundable processing fee of \$200 to each sponsoring site submitting a Site Application at the time the application is submitted. A non-refundable processing fee of \$250 shall be charged to each pre-approved site to process the waiver request application for each J-1 physician that the site plans to employ. The check is to be made payable to the State of Delaware, and mailed to the attention of the Bureau at the following address:

Conrad State 30 Program Manager  
 Delaware Division of Public Health  
~~Health Systems Development Branch~~  
 417 Federal Street, Jesse Cooper Building  
 Dover, Delaware 19901

- 3.8 DHSS reserves the right to bar sites and/or physicians found to be non-compliant with program policies and/or to have a high turnover rate of J-1 physicians from future program participation.
- 3.9 This policy applies in full to any waiver submitted on behalf of a J-1 physician to be employed in Delaware.

#### 4.0 DHSS Duties and Responsibilities

~~The Health Systems Management Section of the~~ Delaware Division of Public Health (DPH) has primary responsibility within DHSS for processing J-1 visa waivers. DHSS serves as the "interested state agency" with the Director of Public Health having the authority to sign the recommendations. Applications must be processed in the best interest of the health care needs of Delawareans.

#### 5.0 Applicability

These procedures apply to the following:

- 5.1 All J-1 physicians seeking a J-1 visa waiver under PL 103-416 for employment in Delaware.
- 5.2 All sponsoring sites seeking approval to hire a J-1 physician under the J-1 Visa Waiver program.

- 6.1.3.1 Non-compete language and/or clauses in employment contracts are strictly prohibited.

7.3.3 The following point scale has been assigned to each unique element:

Review Point Scale

Site Application Data	25

Retention	15
Proof of Failed Recruitment Attempts	15
Letters of Support	10
Total	100

7.3.4 The scores from the review elements will be averaged to reach an overall total score for each Board member. The total scores received from each Board member will then be averaged to determine the final score for each site.

The application must include a detailed explanation of that documents why the application was not submitted by June 30. If not all thirty Conrad State 30/J-1 Visa Waiver slots have been used for the current fiscal year, sponsoring sites deemed by the J-1 Board to have sufficiently demonstrated a true emergent need may make a contractual offer to a J-1 physician immediately upon approval and the physician may submit a J-1 visa waiver application packet (see Appendix C for forms) for the current fiscal year. If all thirty Conrad State 30/J-1 Visa Waiver slots have been used, then approved sponsoring sites must wait until the following federal fiscal year (beginning October 1<sup>st</sup> of each year) to submit a J-1 physician waiver application.

7.5.2 Sponsoring sites clearly demonstrating a emergent need (see definitions section) that will significantly jeopardize access to care for the applicant site's existing patient population of the applicant site need to document four rather than six months of recruitment efforts. All other recruitment efforts as set forth in these regulations apply.

7.6 Notice of Approval/Disapproval

7.6.1 For those applications received by June 30, DHSS will provide written notification of the Site Application's approval or disapproval by September 15<sup>th</sup> of each year.

(Please see definitions section of the regulations for definition of emergent need.)

8.2 Site Notification DHSS will notify sponsoring sites in writing of the decision to approve or disapprove their site by September 15<sup>th</sup> of each year. Inquiries regarding the status of pending applications will not be accepted at any time prior to September 15<sup>th</sup>.

## 10.0 Submitting J-1 Physician Waiver Recommendation To DOS
