DIVISION OF FISH AND WILDLIFE

Statutory Authority: 7 Delaware Code, Sections 901 (c & d) and 903(e)(2)a.1 (7 Del.C. §§901(c & d) & 903(e)(2)a.1)

7 DE Admin. Code 3507

FINAL

Secretary's Order No.: 2022-F-0005

RE: Approving Final Regulation, pursuant to 7 Del. C. §903(e)(2)a.1, to Amend 7 DE Admin. Code 3507: *Black Sea Bass Size Limit; Trip Limits, Seasons; Quotas*

Date of Issuance: April 29, 2022

Effective Date of the Amendment: 48 hours following publication of this Secretary's Order and regulation on the Department's website

3507 Black Sea Bass Size Limit; Trip Limits, Seasons; Quotas

Under the authority vested in the Secretary of the Department of Natural Resources and Environmental Control ("Department" or "DNREC"), pursuant to 7 Del. C. §903(e)(2)a.1, and all other relevant statutory authority, the following findings of fact based on the reasons and conclusions are entered as an order of the Secretary in the above-referenced regulatory amendment.

Notwithstanding 29 Del.C. Ch. 101 (which sets forth the standardized procedures whereby a state agency shall promulgate regulations), the Department also has the statutory authority under 7 Del. C. §903(e)(2)a.1 to promulgate certain regulations in order to adopt a specified management measure for finfish, subject to 7 Del.C. Ch. 9, *Finfishing in Tidal Waters*, by the issuance of a Secretary's Order. The Department is allowed to follow this abbreviated regulatory promulgation process only in instances where the management measures are specified by, and ensures compliance or maintains consistency with, a fisheries management plan or rule established by the Atlantic States Marine Fisheries Commission ("ASMFC"), the *Atlantic Coastal Fisheries Cooperative Management Act*, the Mid-Atlantic Fishery Management Council, or the National Marine Fisheries Service.

Whenever the Department promulgates a regulation pursuant to 7 Del. C. §903(e)(2)a.1, it shall also (1) publish on its website a public notice with a copy of the Secretary's Order and final regulation that implements the specific management measure; and (2) file the Secretary's Order and regulation that implements the specified management measure in the next available issue of the Delaware *Register of Regulations*. The final regulation becomes effective 48 hours after the Department has published the aforementioned public notice on its website, as mandated by 7 Del. C. §903(e)(2)a.2.

Background, Procedural History and Findings of Fact

This order amends 7 DE Admin. Code 3507: *Black Sea Bass Size Limit; Trip Limits, Seasons; Quotas* as part of an effort to reduce Black Sea Bass mortality in the recreational fishery by adopting specified management measures approved by the ASMFC's Summer Flounder, Scup, and Black Sea Bass Board ("Board") at its March 24, 2022 meeting. Specifically, this amendment increases the recreational minimum size limit for Black Sea Bass by one half inch, from 12.5 to 13 inches and reduces the open season by 20 days, closing on December 11 instead of December 31.

The estimated 2021 recreational Black Sea Bass harvest exceeded the Recreational Harvest Limit (RHL) by 28%, thus the Board was required to take action to constrain the 2022 recreational Black Sea Bass harvest to the 2022 RHL. The Board has required all regions in the management unit to develop management measures that are expected to reduce the 2022 recreational harvest by at least 20.7% in their region and thus constrain harvest to the RHL for the management unit. The Southern Black Sea Bass Region, to which Delaware belongs, proposed and had approved by the Board the aforementioned measures that increase the minimum size limit and shorten the season.

The Department has the statutory basis and legal authority to act with regard to promulgation of the proposed amendments to 7 DE Admin. Code 3507: *Black Sea Bass Size Limit; Trip Limits, Seasons; Quotas* pursuant to 7 Del. C. §§901 (c & d) and 903(e)(2)a.1. This specific management measure is required by the ASMFC Summer Flounder, Scup, and Black Sea Bass Board to keep Delaware compliant with the ASMFC Addendum XXXII to the Summer Flounder, Scup, and Black Sea Bass Fishery Management Plan: Summer Flounder and Black Sea Bass Recreational Management.

ORDER

In accordance with 7 Del. C. §903(e)(2)a.1, it is hereby ordered, this 29th day of April, 2022 that the above referenced amendments to 7 DE Admin. Code 3507: *Black Sea Bass Size Limit; Trip Limits, Seasons; Quotas*, a copy of which is hereby attached, are supported by the evidence contained herein and are hereby adopted. The above referenced amendment shall take effect 48 hours following publication of this Secretary's Order and regulation on the Department's website in accordance with 7 Del. C. §903(e)(2)a.2.
