PROPOSED

REGISTER NOTICE #2011-05

3507 Black Sea Bass Size Limit; Trip Limits, Seasons; Quotas

1. TYPE OF ACTION:

Amend Tidal Finfish Regulation 3507 Black Sea Bass Size Limit; Trip limit; Seasons; Quotas

2. PURPOSE OF ACTION:

The Atlantic States Marine Fisheries Commission's (ASMFC) Management Board for Black Sea Bass is in the process of developing an Addendum to the Interstate Fisheries Management Plan. The Addendum will recommend management strategies necessary to reduce recreational harvest to levels recommended by the National Marine Fisheries Service to prevent overfishing. The Department's Start Action Notice was initiated with specific management recommendations in the form of seasons, minimum size limits, and creel limits. Since that time, the ASMFC has taken an alternate approach that may result in a variety of options for States to consider rather than the original set of regulations and guidelines. It is anticipated that these State or Regional-specific management measures will be defined and available for public comment by the time of the public hearing. The Department will present the approved options that will allow the State to remain in compliance with the interstate management plan at the public hearing or as soon as they are available.

3. STATUTORY BASIS:

Title 7 **Delaware Code** §903(e)(2)a

4. LIKELY AFFECTED PUBLIC:

Recreational fishermen; bait and tackle dealers; party and head boat operators.

5. NOTICE OF PUBLIC COMMENT:

Individuals may present their comments or request additional information by contacting the Fisheries Section, Division of Fish and Wildlife, 89 Kings Highway, Dover, DE 19901, (302) 739-9914. A public hearing on the proposed amendment will be held on March 24, 2011 at the Department of Natural Resources and Environmental Control auditorium beginning immediately following the summer flounder public hearing that begins at 6 PM, located at 89 Kings Highway, Dover, DE 19901.
