REASONS FOR THE EMERGENCY ORDER

Rapid and widespread transmission of COVID-19 has significantly impacted many vulnerable individuals receiving healthcare services throughout the community.

In order to protect our most vulnerable citizens from COVID-19, staff, vendors and volunteers must either provide evidence of COVID-19 vaccination or undergo regular testing to prevent the transmission of COVID-19. While the state's requirements will offer employees the choice between getting vaccinated or getting tested, employers should encourage vaccination and federal guidance permits employers to require vaccinations.
