**SUMMARY OF PROPOSAL**

The purpose of this notice is to advise the public that Delaware Health and Social Services (DHSS)/Division of Medicaid and Medical Assistance (DMMA) is proposing to amend Title XIX Medicaid State Plan regarding Vaccines.

**Statutory Authority**

- Inflation Reduction Act (IRA)
- Section 1905(r)(1)(B)(iii) and (5) of the Act
- 42 CFR § 438.4(a)
- 42 CFR § 438.6(c)

**Background**

On June 27, 2023, the Centers for Medicare & Medicaid Services (CMS) issued guidance on section 11405 of the IRA (Pub. L. 117-169). Statutory amendments made by section 11405 of the IRA require Medicaid coverage and payment for approved adult vaccines recommended by the Advisory Committee on Immunization Practices (ACIP) and their administration, without cost sharing.

Vaccines administered to recommended populations at recommended intervals can reduce morbidity, hospitalizations, and deaths, and save costs. Vaccines may reduce the overall burden of infections, which remain high in the United States. For example, the Centers for Disease Control and Prevention (CDC) estimates that influenza has resulted in between 140,000 to 710,000 hospitalizations and 12,000 to 52,000 deaths annually between 2010 and 2020. An estimated 150,000 individuals per year are hospitalized because of pneumococcal pneumonia. In 2020, there were 5 newly reported cases of hepatitis B per 100,000 persons. The human papillomavirus (HPV) causes more than 37,000 cases of cancer each year.

Vaccination rates are suboptimal for all adults, regardless of health coverage, but for adults enrolled in Medicaid, the vaccination rates for a range of vaccinations are lower than for adults with private health insurance coverage, including influenza, tetanus, herpes zoster, hepatitis A, hepatitis B, and HPV vaccinations. Additionally, the COVID-19 public health emergency (PHE) had a negative impact on the rate of children receiving routine childhood vaccinations. Although child vaccination rates have rebounded since the beginning of the COVID-19 PHE, there is still a gap in child vaccinations compared to prior years.

DMMA will pay for vaccines that are recommended by the Advisory Committee on Immunization Practices (ACIP) and will be covered for adults 18 and older with no cost share.
