At the discretion of the Director, a license may be issued as "conditional" based on information received or determinations made during the Internet lottery application process.
- 4.9 If the Director proposes to deny a license application and the agency is subject to the requirements contained in subchapter IV of 29 Del.C.  - 4.11.9 An agent has a continuing duty to maintain suitability for licensure. A license does not create a property right, but is a revocable privilege contingent on continuing suitability for licensure.

Modification to and Surrender of License

- 4.12 Any license granted may not be transferred, assigned or pledged as collateral. A change of ownership which occurs after the Director has issued a license shall automatically terminate the license ninety (90) days thereafter. Provided, however, that the Director may issue a license to the new owner if satisfied, after the submission of an application that the new owner has met the requirements contained in 29 Del.C. §4806(a)(1-4), as well as the fitness and background standards contained in such law and these regulations. In the case of a death of an owner, the estate of such owner shall be deemed to have met the requirements of §4806(a)(1-4) for a period of one year following such death without the need for submitting an application, and, thereafter, need only supply such additional information as the Director may request. In the case of a shift in equity positions of owners, or a transfer among owners, notice shall be given the Director, but the license shall not terminate so long as no new owner is created or results. An agent may also seek approval of a proposed change in ownership prior to the actual change.
- 4.13 An agent shall immediately notify the agency of any proposed or effective change regarding the makeup of the owners, directors, officers, partners, or key employees of the agent.
- 4.14 An agent may surrender its Internet lottery license by written notice to the Director. The surrender takes effect on the day specified in the surrender notice, or if no day is specified on the surrender notice, one month after the surrender notice is given to the Director.

- 5.1 As deemed necessary, the Director shall give public notice of the agency's intent to select technology providers of Internet lottery systems that consist of the hardware software and expertise to operate a gaming platform providing an integrated suite of modules including player account management, network management, multi-level tracking and reporting and integration with multiple game content vendors through a request for proposal and qualifications by advertising in a newspaper of general circulation in Delaware and in a prominent trade publication requesting expressions of interest to be selected as a technology provider. The licensing of a technology provider shall not serve as the basis of requiring the Director to select the technology provider under the procurement procedures set forth in Ch. 69 of Title 29 of the **Delaware Code**.

- 5.2 A person or entity shall be classified as a technology provider if:
- 5.2.1 It provides the hardware, software or operational services required to operate the Internet lottery gaming platform; or

- 5.9 Notwithstanding any other provision contained herein to the contrary, the Director may determine, on review of the licensing standards of another state, that such standards are so comprehensive, thorough, and provide similar adequate safeguards, that the license of an applicant in such other state precludes the necessity of a full application and background check. In such case, the Director shall require a limited application and background check, as determined by the Director in his sole discretion, as are necessary to assure that the applicant is fit for the license and does not pose a threat to the public interest of the State or to the reputation of or effective regulation of the Internet lottery.

No license shall be issued to any applicant if any of the persons identified in this subsection have been convicted, within 10 years before the filing of the application, of any felony, a crime of moral turpitude or a crime involving gambling.
 - 5.10.3 Any findings provided by the DGE following its background investigation.

 - 5.10.6 Any other information supplied in connection with the application, including substantially similar background investigations performed by other agencies or jurisdictions, which relates to the applicant's competence, financial capability, honesty, integrity, reputation, habits, or associations.
 - 5.10.7 The degree to which the applicant has supplied accurate and complete information in response to the requirements of these regulations.

- 5.10.8 A license shall not be issued to a technology provider if the applicant technology provider has any direct or indirect financial interest in an agent licensee or the real or personal property of an agent licensee.
- 5.11 A license shall be issued to the applicant if the Director is satisfied, on consideration of the factors specified in subsection 5.10, that the applicant would be a fit technology provider and not pose a threat to the public interest, the reputation of the lottery or to the effective control of the lottery.
- 5.12 An applicant for a technology provider's license shall, before issuance of the license, post a bond or irrevocable letter of credit in a manner and in an amount established by the agency. These individuals shall also be subject to a background investigation. - 15.11 Remote access by vendor personnel to any component of the Internet lottery system is allowed for purposes of support or updates and is enabled only when approved by authorized IT personnel employed by the technology provider. If the remote access to a database is performed by unlicensed vendor personnel, the remote access must be continuously monitored by IT personnel employed by the technology provider of the Internet lottery system.
- 15.12 Remote access to any component of the Internet lottery system shall not result in the transfer of personally identifiable information outside of the United States.

16.0 Accounting and Distribution Procedures

Maintenance of Accounts

- 16.1 The technology provider will provide an accounting mechanism for the Internet lottery system as a whole, which mechanism shall achieve compliance with the standards of integrity, security and control established by the agency.
- 16.2 The agency or its designated agents shall have the right to audit the books and records including without limitation tax returns and IRS withholding and reporting records of any agent and each technology provider. To such end, the agents and technology providers shall fully cooperate with whoever undertakes the audit.
- 16.3 The agency will maintain a separate bank account to hold funds deposited into registered player's accounts.
- 16.4 All proceeds, net of proceeds returned to players, from the operation of the Internet lottery shall be electronically transferred no less than monthly at the discretion of the Lottery Director into designated accounts held by the licensed Internet lottery agents. To the extent, if any, that such remission cannot be achieved due to the unavailability of bank services, the remission shall be made on the first day that such services are available. Agents shall furnish to the agency all information and bank authorizations required to facilitate the timely transfer of monies from the State lottery fund. Agents shall provide the agency 30 days advance notice of any proposed account changes in order to assure the uninterrupted electronic transfer of funds.
- 16.5 Agents shall follow all prescribed Federal requirements for tax withholding, recording and reporting, including, without limitation, those requirements relating to the transfer of funds withheld from player winnings from the agents to the tax authorities.
- 16.6 Any discrepancy regarding settlement of accounts will be resolved by the Director as he or she deems appropriate.

Anti-money Laundering

- 16.7 Each agent and technology provider shall maintain complete, accurate, and supporting records sufficient to comply with all federal financial record keeping requirements of Title 31 Code of Federal Regulations, part 103.

Submission of Reports to Lottery

- 16.8 Each agent and technology provider shall submit to the Director such financial and operating information as the Director shall require from time to time at such times and in such format as the Director shall specify. For purposes of submission of this and other information, each agent shall have a computer on the premises which is suitable for this purpose.

- 16.8.1 Each agent, unless specifically exempted by the Agency, shall file weekly, monthly, quarterly, and annual reports and statistical data in a format specified by the Director. The data may be used by the agency to evaluate the financial position and operating performance of individual Internet lottery agents and to compile information regarding the performance and trends of the Internet lottery industry in the State of Delaware.
- 16.8.2 Each agent, unless specifically exempted by the Agency, shall at its own expense, cause its annual financial statements to be audited in accordance with generally accepted auditing standards by an independent certified public accountant licensed to practice in the State of Delaware.
- 16.8.3 The annual financial statement shall be prepared on a comparative basis for the current and prior fiscal year, and shall present the Internet lottery agent's present financial position and results of operations in conformity with generally accepted accounting principles.
- 16.8.4 The agency may periodically prescribe a set of standard reporting forms and instructions to be used by each Internet lottery agent for filing the weekly, monthly, and quarterly reports.
- 16.8.5 Each Internet lottery agent and technology provider, unless specifically exempted by the Agency, shall conduct its Internet lottery operations to meet the minimum requirements set forth in the Agency's Minimum Internal Control Standards (MICS).

17.0 Monitoring of Operations

Internal Audit

- 17.1 Each agent shall maintain an internal audit function either through a separate on-site department, or through the use of corporate internal audit, or through the outsourcing of this function. The internal audit function shall maintain its independence through an organizational reporting line that is outside the management of the gaming operation. The director of the function shall report directly to the license holder, a corporate executive outside the property, or to an independent audit committee.
 - 17.1.1 The internal audit function shall operate with audit programs, checklists, or reports which, at a minimum, address the regulations and MICS and properly document the work performed, the conclusions reached, the resolution of all exceptions, and any other additional information as required by the director. Reports documenting audits performed shall be maintained for a minimum of five years and shall be made available to the Director on request.

Periodic Security Audits

- 17.2 The technology provider shall:
 - 17.2.1 Have the external interface of the website scanned for known vulnerabilities at least once every six months by an expert third party.
 - 17.2.2 Have the external interface of the website subjected to penetration testing at least annually by an expert third party.
 - 17.2.3 Submit the resulting reports of vulnerability scanning and penetration testing to the Director no later than one month after the date of the scan or penetration test.

18.0 Enforcement

- 18.1 The license of an Internet lottery agent, technology provider or service provider may be suspended or revoked for the following reasons:
 - 18.1.1 Failure of the agent to file with the Director the information required pursuant to 29 Del.C. §4826; and
 - 18.1.2 For cause, such as, but not limited to falsifying any application for license or report to the agency; failure to report information required by the regulations; the material violation of the regulations; or any conduct by the licensee, or any of its owners, officers, directors, partners, key employees, or Internet lottery operations employees, which undermines the public confidence in the Internet lottery system or serves the interest of organized gambling or crime and criminals in any manner. A license may be revoked for an unintentional violation of any Federal, State or local law, rule or regulation provided that the violation is not cured within a reasonable time as determined by the Director, or a longer period where the Internet lottery agent has made diligent efforts to cure. For purposes of this provision, the licensee is deemed to be familiar with all the provisions of these regulations and unintentional violations shall not include violations which the agent, technology provider or service provider asserts are unintentional because of lack of awareness of these regulations. Likewise, for purposes of this provision, diligent efforts to cure shall not be a defense to a suspension or revocation of the license arising out of situations where the violation would not have occurred had the licensee exercised diligent efforts to follow the requirements when they were first applicable.

- 18.2 Before the revocation or suspension of any license, the agency shall notify the licensee of the intended revocation or suspension of the license, and the reasons for such action. No revocation or suspension shall be effective until a final order is issued in response to the following procedure, except when the public welfare clearly requires emergency action and the agency's order so states. The notice of the intended revocation or suspension shall follow any applicable requirements of the Delaware Administrative Procedures Act and, at a minimum, afford the licensee with an opportunity for a hearing.
- 18.3 If the licensee desires a hearing, it shall provide the agency with a written statement within 10 days of receipt of the notice which contains the following:
- 18.3.1 A clear and concise assignment of each error which the licensee alleges to have been committed in the tentative determination to suspend or revoke the license. Each assignment of error should be listed in a separately numbered paragraph.
- 18.3.2 A clear and concise statement of the facts on which the licensee relies in support of each assignment of error.
- 18.3.3 A prayer setting forth the relief sought.
- 18.3.4 The signature of the licensee or an officer authorized to request the hearing.
- 18.3.5 A verification by the licensee or counsel for the licensee that the statements contained in the statement are true.
- 18.4 The Secretary of Finance with respect to petitions filed by agents, and the Director with respect to petitions filed by technology providers and service providers, shall appoint a hearing officer within a reasonable time of receipt of the statement referenced in the preceding paragraph. Notice of the hearing shall be given at least 20 days before the date it is to be held.
- 18.5 The licensee may appear individually, by legal counsel, or by any other duly authorized representative. In the absence of the licensee, written evidence of a representative's authority shall be presented to the hearing officer in a form satisfactory to the hearing officer.
- 18.6 The licensee or his duly authorized representative, may, with the approval of a hearing officer, waive the hearing and agree to submit the case for decision on the record, with or without a written brief. Such a waiver or agreement shall be in writing and placed in the record.
- 18.7 The licensee shall be given an opportunity for argument within the time limits fixed by the hearing officer following submission of the evidence. The hearing officer, on request of the licensee, may accept briefs in lieu of argument. The briefs shall be filed within ten days after the hearing date or within such other time as fixed by the hearing officer.
- 18.8 The hearing officer may admit any relevant evidence, except that it shall observe the rules of privilege recognized by law. The hearing officer may exclude any evidence which is irrelevant, unduly repetitious, or lacking a substantial probative effect.
- 18.9 A record shall be made of all hearings and all witnesses shall be sworn and subject to cross examination.
- 18.10 Following the conclusion of the hearing and within 10 days of the receipt of the transcript thereof, or within such other time as fixed by the hearing officer but in no event later than forty-five days following the hearing, the hearing officer shall in proceedings involving agents prepare a final decision, including his or her findings of fact and conclusions of law, and the order signed by the hearing officer shall be final. A copy of said order shall be served on the licensee and any attorney of record in person or by registered or certified mail. In proceedings involving technology providers and service providers, the hearing officer shall submit his or her recommendations to the Director for decision.
- 18.11 Notwithstanding the procedures set forth herein regarding technology providers, there shall be no right of hearing or judicial review allowed with respect to decisions involving technology providers unless otherwise provided by law.
- 18.12 Whoever violates the Lottery chapter 29 **Del.C.** Ch. 48, or any Lottery rule or regulation duly promulgated thereunder, or any condition of a license issued pursuant to 29 **Del.C.** §4826, or any Administrative Order issued in response to Lottery statutes or Regulations shall be punishable as follows:
- 18.12.1 If the violation has been completed, by a civil penalty imposed by Superior Court, which by 29 **Del.C.** §4823 shall have jurisdiction of civil penalty actions brought in response to this section, of not less than \$1,000 nor more than \$10,000 for each completed violation. Each day of a continued violation shall be considered as a separate violation if, on each such day, the violator has knowledge of the facts constituting the violation and knows or should know that such facts constitute or may constitute a violation. Lack of knowledge regarding such facts or violation shall not be a defense to a continued violation with respect to the first day of its occurrence.
- 18.12.2 If the violation is continuing or there is a substantial likelihood that it will reoccur, the Director may also seek a temporary restraining order, preliminary injunction, or permanent injunction in the Court of

Chancery, which shall have jurisdiction of an action for such relief.

18.12.3 In his discretion, the Director may impose an administrative penalty of not more than \$1,000 for each administrative penalty for each violation. Each day of continued violation shall be considered as a separate violation if the violator has knowledge of the facts constituting the violation and knows or should know that such facts constitute or may constitute a violation. Lack of knowledge regarding such facts or violations shall not be a defense to a continued violation with respect to the first day of its occurrence. Before the assessment of an administrative penalty, written notice of the Director's proposal to impose such penalty shall be given to the violator, and the violator shall have 30 days from receipt of such notice to request a public hearing. Any public hearing, if requested, shall be held before the imposition of the penalty and shall be governed by §10125 of Title 29. If no hearing is timely requested, the proposed penalty shall become final and shall be paid no later than 60 days from receipt of the notice of proposed penalty.

Assessment of an administrative penalty shall take into account the circumstances, nature, and gravity of the violation, as well as any prior history of violations, the degree of culpability, the economic benefit to the violator resulting from the violation, any economic loss to the State, and such other matters as justice may require. In the event of nonpayment of an administrative penalty within 30 days after all legal appeal rights have been waived or otherwise exhausted, a civil action may be brought by the Director in Superior Court for the collection of the penalty, and for interest, from the date payment was due, attorneys' fees and other legal costs and expenses. The validity or amount of such administrative penalty shall not be subject to review in an action to collect the penalty. Any penalty imposed after a public hearing is held in regard to this subsection shall be appealable to Superior Court, and such appeal shall be governed by §10142 of Title 29.

18.12.4 In his discretion, the Director may try to obtain compliance with requirements of the Lottery chapter, 29 Del.C. Ch. 48, by written Administrative Order. Such order shall be provided to the responsible party, shall specify the complaint, and propose a time for correction of the violation. It may also provide an opportunity for a public hearing at which the Director shall hear and consider any submission relevant to the violation, corrective action, or the deadline for correcting the violation.

18.13 The Director shall enforce Ch. 48, 29 Delaware Code and any rules, regulations, or Administrative Orders issued thereunder.

18.14 Any interest, costs or expenses collected by the Lottery under actions instituted by 29 Del.C. §4823 or these regulations shall be appropriated to the State Lottery Office to carry out the purposes of 29 Del.C. Ch. 48.

19.0 Severability

The sections and subsections of these rules and regulations shall be deemed severable. Should any section or subsection be deemed by judicial opinion or legislative enactment to be invalid, unconstitutional or in any manner contrary to the laws of the State of Delaware, then such opinion or enactment shall invalidate only that particular section or subsection of these rules and regulations and all other sections shall remain in full force and effect.
