**PROPOSED**

**PUBLIC NOTICE**

**3300 Board of Veterinary Medicine**

Pursuant to 24 Del.C. §3306(a)(1), the Board of Veterinary Medicine ("Board") has proposed revisions to its rules and regulations.

A public hearing will be held on October 11, 2016 at 1:00 p.m. in the second floor conference room A of the Cannon Building, 861 Silver Lake Boulevard, Dover, Delaware, where members of the public can offer comments. Anyone wishing to receive a copy of the proposed rules and regulations may obtain a copy from the Board of Veterinary Medicine, 861 Silver Lake Boulevard, Dover, Delaware 19904. Persons wishing to submit written comments may forward these to the Board at the above address. Pursuant to 29 Del.C. §10118(a), the final date to receive written comments will be October 26, 2016, which is 15 days following the public hearing. The Board will deliberate on all of the public comments at its next regularly scheduled meeting, at which time the Board will decide whether to adopt the revisions as proposed.

The Board proposes a new Section 2.0 to address euthanasia of animals held in shelter, as set forth in 16 Del.C. §3004F. Other Sections are revised accordingly to accommodate the specific legal requirements pertaining to shelter animals. The Board also proposes requiring proof of continuing education hours for individuals who do not apply for licensure within the two-year period following examination. In addition, various Sections are amended to clarify the requirements for license renewal, reinstatement and inactive status. Typographical errors are corrected and the rules and regulations are re-numbered to accommodate the new Section 2.0.

A public hearing on proposed revisions was originally scheduled for April 12, 2016. However, prior to the hearing, the Board decided to revise the rules and regulations further. The Board therefore withdrew the rules and regulations published in the March 1, 2016 *Register of Regulations*, Volume 19, Issue 9.

The revised rules and regulations were published in the May 1, 2016 *Register of Regulations*, Volume 19, Issue 11. However, due to formatting errors in the marked-up submission, the rules and regulations will be published again with an October 11, 2016 hearing. There are no new revisions, other than correction of the formatting errors noted herein.

**1.0 Supervision**

**(24 Del.C. §3303(10) and (11))**

1.1 Supervision refers to the oversight of any person performing non-licensed support activities and/or licensed veterinary technician activities by a licensed Delaware veterinarian. Oversight includes control over the work schedule of the person performing support and/or veterinary technician activities and any remuneration the person receives for performing such activities. Oversight does not include remuneration paid directly to support personnel or veterinary technicians by the public. Supervision of veterinary technicians and support personnel is based on the following:

- 1.1.1 The initial examination of the animal by the veterinarian is to be performed prior to the delegation of work to be performed by support personnel. The veterinarian may, however, authorize support or veterinary technician personnel to administer emergency measures prior to the initial examination.
- 1.1.2 The veterinarian shall develop a treatment plan to be referenced by support and/or veterinary technician personnel.
- 1.1.3 The veterinarian must authorize the work to be performed by support and/or veterinary technician personnel. Whether tasks are appropriate to be delegated may differ from case to case.

- 1.2.1 Diagnosing.
- 1.2.2 Prognosing

- 1.5 If the veterinarian concludes based on the initial examination (required by paragraph subsection 1.1.1) that delegation is appropriate, support personnel may perform the following tasks only under the following supervision:
- 1.5.1 Immediate supervision: intubation, urethral catheterization (except in the case of known urinary blockage or pre-existing urethral or urinary bladder disease); dental extractions with no periosteal elevation, no sectioning of tooth and no resectioning of bone.
