SUMMARY OF PROPOSAL

The purpose of this notice is to advise the public that Delaware Health and Social Services (DHSS)/Division of Medicaid and Medical Assistance (DMMA) is proposing to amend Title XIX Medicaid State Plan regarding telehealth services specifically, *to add facilities to which originating site fees can be paid.*

Statutory Authority

- 42 CFR 410.78, *Telehealth services*
- 42 CFR Part 440, *Services*

Background

For the purposes of Medicaid, telehealth seeks to improve a patient's health by permitting two-way, real time interactive communication between the patient, and the physician or practitioner at the distant site. This electronic communication means the use of interactive telecommunications equipment that includes, at a minimum, audio and visual equipment.

According to the Centers for Medicare and Medicaid Services (CMS), the Medicaid program and the federal Medicaid statute (Title XIX of the Social Security Act) do not recognize telehealth as a distinct service. CMS does note, however, that telehealth "is viewed as a cost-effective alternative to the more traditional face-to-face way of providing medical care" (e.g., face-to-face consultations or examinations between provider and patient) that states can choose to cover under Medicaid and that there is "flexibility inherent in federal law to create innovative payment methodologies for services that incorporate telemedicine technology."

Summary of Proposal

Purpose

The purpose of this proposed regulation is to add facilities to which originating site fees can be paid, specifically Federally Qualified Health Centers and School Based Wellness Centers.

Summary of Proposed Changes

Effective for services provided on and after January 1, 2020 Delaware Health and Social Services/Division of Medicaid and Medical Assistance (DHSS/DMMA) proposes to amend Attachment 4.19-B Page 24 of Title XIX Medicaid State Plan regarding telehealth services originating site fees.

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT STATE/TERRITORY: **DELAWARE**

METHODS AND STANDARDS FOR ESTABLISHING PAYMENT RATES (Continued)

Payment for the telehealth originating site facility fee is made at the same percentage of the Medicare rate that is used for practitioner services on the date of service. The State currently pays practitioners at 98% of Medicare rates. The originating site fee will also be paid at 98% of the Medicare fee for the same service.

~~If either the delivering or originating site telemedicine fee methodology conflicts with the State defined reimbursement methodology for the particular provider type, the existing reimbursement methodology will apply. For Federally Qualified Health Centers (FQHCs) and Rural Health Clinics (RHCs), where federal regulations mandate specific reimbursement methodologies, that requirement will take precedence over the originating site fee.~~

The site fee is only for the originating site and the site provider would not be entitled to any other payment for the telemedicine service which was delivered by the distant site.

Qualifying provider services include office visits, consultations, psychotherapy, medication management, psychiatric interview or examination, substance abuse screening and brief intervention, neurobehavioral examination, end stage renal disease services and medical nutrition therapy, etc.

Federally Qualified Health Centers and School-Based Wellness Centers acting in the role of an originating site provider with no other separately identifiable service being provided will only be paid the originating site telehealth fees and will not receive reimbursement for an encounter.

The telemedicine payment methodology shall be effective with dates of service on or after ~~July 2, 2012~~ September 1, 2019.

Fee schedules for telemedicine provided services are available on the DMAP website at: <http://www.dmap.state.de.us/downloads> <https://medicaid.dhss.delaware.gov/provider>.

Except as otherwise noted in the Medicaid State Plan, State-developed fee schedule rates are the same for both government and private providers.

Separate reimbursement is not made for the use of technological equipment and systems associated with a telemedicine application to render the service.
