SUMMARY OF PROPOSAL

The purpose of this notice is to advise the public that Delaware Health and Social Services (DHSS)/Division of Medicaid and Medical Assistance (DMMA) is proposing to amend Title XIX Medicaid State Plan regarding the Medicaid Recovery Audit Contractor (RAC) Program, specifically, to request an exception to the RAC contracting requirements.

Statutory Authority

- The Patient Protection and Affordable Care Act, Public Law 111-148, Section 6411, Expansion of the Recovery Audit Contractor (RAC) program
- Section 1902(a)(42)(b) of the Social Security Act requires states to establish programs to contract with RACs to audit payments to Medicaid providers by December 31, 2010
- 42 CFR 455 Subpart A, Medicaid Agency Fraud Detection and Investigation Program
- 42 CFR 455 Subpart F, Medicaid Recovery Audit Contractors Program

Background

Under Section 1902(a)(42)(B)(i) of the Act, states and territories are required to establish programs to contract with one or more Medicaid Recovery Audit Contractors (RACs) to identify underpayments and overpayments, as well as recouping overpayments, under the Medicaid State Plan and any Medicaid State Plan Waivers. This applies to all services for which payment is made to any entity under such plan or waiver. States must establish these programs in a manner consistent with State law and generally in the same way as the Secretary contracts with contingency fee contractors for the Medicare RAC program.

Section 1902(a)(42)(B)(i) of the Act specifies that States shall establish programs under which they contract with Medicaid RACs subject to such exceptions or requirements as the Secretary may require for purposes of a particular State. This provision enables the Centers for Medicare and Medicaid Services (CMS) to vary the Medicaid RAC program requirements. For example, CMS may exempt a State from the requirement to pay Medicaid RACs on a contingent basis for collecting overpayments when State law expressly prohibits contingency fee contracting. However, another fee structure could be required under any such exception (e.g., a flat fee arrangement).

States that otherwise wish to request variances concerning, or an exception from, Medicaid RAC program requirements must submit a request to CMS from the State's Medicaid Director to the CMS/Medicaid Integrity Group.

Although the Delaware Division of Medicaid and Medical Assistance (DMMA) previously had a Recovery Audit Contract (RAC) vendor, that contract is no longer in place. DMMA posted a Request for Proposals (RFPs) to attract a new RAC vendor but received no bids. Most of Delaware's Medicaid population is enrolled in managed care, and the providers treating them are not subject to audit recovery contracting. There is not sufficient revenue generation to fund an adequate contingency fee.

In a letter dated December 26, 2020, the Centers for Medicare & Medicaid Services (CMS) approved an amendment modifying the State Plan to grant Delaware an exception to the RAC requirements for a 2-year period ending June 30, 2020. After careful review, the RAC requirements continue to be impractical and not cost-effective for Delaware's Medicaid

program. Delaware will submit an amendment to modify the State Plan to grant Delaware an exception to the RAC requirements.

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT
STATE/TERRITORY: **DELAWARE**

4.5 Medicaid Recovery Audit Contractor Program

Citation

Section 1902(a)(42)(B)(i)
of the Social Security Act

The State has established a program under which it will contract with one or more recovery audit contractors (RACs) for the purpose of identifying underpayments and overpayments of Medicaid claims under the State plan and under any waiver of the State plan.

Section 1902(a)(42)(B)(ii)(I)
of the Act

The State is seeking an exception to establishing such program for the following reasons:

Although the Delaware Division of Medicaid and Medical Assistance (DMMA) previously had a Recovery Audit Contract (RAC) vendor, that contract is no longer in place. DMMA posted a Request for Proposals (RFPs) in an attempt to attract a new RAC vendor but received no bids. The majority of Delaware's Medicaid population is enrolled in managed care and the providers treating them are not subject to audit recovery contracting. There is not sufficient revenue generation to fund an adequate contingency fee. Program review and assessment indicate RAC requirements as impractical and not cost-effective for Delaware's Medicaid program.

The State/Medicaid agency has contracts of the type(s) listed in section 1902(a)(42)(B)(ii)(I) of the Act. All contracts meet the requirements of the statute. RACs are consistent with the statute. Delaware RFP for RACs is completed.

Place a check mark to provide assurance of the following:

The State will make payments to the RAC(s) only from amounts recovered.

The State will make payments to the RAC(s) on a contingent basis for collecting overpayments.

Section
1902(a)(42)(B)(ii)(II)(aa) of the
Act

The following payment methodology shall be used to determine State payments to Medicaid RACs for identification and recovery of overpayments (e.g., the percentage of the contingency fee):

The State attests that the contingency fee rate paid to the Medicaid RAC will not exceed the highest rate paid to Medicare RACs, as published in the Federal Register
